# ILLINOIS CROP REPORT

FOR

May 1, 1909

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE  
AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
SPRINGFIELD, May 1, 1909.

The information contained in this report was obtained from the reports of correspondents mailed to this department the first day of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty years, and their estimates for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

## WINTER WHEAT.

Of the 1,064,893 acres seeded last fall for harvest in 1909, it is estimated that 107,859 acres or about 10 per cent has been winter killed or destroyed by floods, leaving 975,034 acres for harvest.

The condition of the growing crop on May 1 is but 83 per cent of normal. Northern Illinois reports the condition as 88 per cent, central Illinois 82 per cent and southern Illinois 80 per cent.

The drought last fall was very hard on winter wheat, retarding its growth. The crop is backward, but showed marked improvement during April. Hessian fly is reported from Monroe county.

## SPRING WHEAT.

The area devoted to spring wheat is reported the same as last year, or 100 per cent, and the May 1 condition as 90 per cent.

376182

## CROP REPORT.

## OLD WHEAT.

Of the 19,508,260 bushels of wheat raised in Illinois last year, it is estimated that there was on May 1, 876,875 or a little more than 4 per cent in the producers' hands, northern Illinois reporting 6 per cent, and central and southern Illinois but 4 per cent of last season's crop still in the producers' hands.

The following table gives the amount of old wheat in first hands May 1 since and including 1880:

YEAR PRODUCED.	Crop in bushels.	Per cent crop on hand following May 1.	Amount crop in producers' hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.
1880 .....	56,508,309	15	8,476,246	39,851,883	.....

Average.....	26,592,963	13	3,427,087	12,461,236	4,384,503

## WINTER RYE.

There were 54,494 acres reported seeded to rye last fall, and the May 1 report shows that 2 per cent of it has been winter-killed, leaving 53,253 acres for harvest.

The May 1 condition is but 88 per cent of normal. Northern Illinois reports the condition as 90 per cent, central Illinois 92 per cent, and southern Illinois 82 per cent.

## OATS.

The area seeded to oats for the 1909 crop is 97 per cent, as compared with that of 1908.

The May 1 condition of oats is 86 per cent of a seasonable average in northern Illinois, 92 per cent in central Illinois, and 89 per cent in southern Illinois, giving a State average of 89 per cent.

## BARLEY.

The area devoted to barley in northern Illinois is 3 per cent less than in 1908, and the May 1 condition is 85 per cent of normal. But very little barley is grown in the central and southern divisions of the State.

## OLD CORN.

The Illinois corn crop of 1908, as reported to this Department, was 213,366,624 bushels. Of this amount, our May 1 report shows that there is about 24 per cent, or 50,757,447 bushels, in the producers' hands.

Champaign county produced the largest corn crop of any county in the State last year, 7,547,328 bushels.

The following table gives the amount of old corn in the producers' hands May 1, the past thirty years, as well as the extent of the crop produced each year:

YEAR PRODUCED.	Crop.	Per cent corn on hand following May 1.	Bushels corn in producers' hands following May 1.
1879 .....	305,913,277	32	99,229,889

1908 .....	213,366,624	24	50,757,447
Average.....	232,179,241	30	68,578,355

## MEADOWS.

The area devoted to meadows is 88 per cent as compared with last year.

Meadows were badly injured by drought last fall and many fields have been plowed up and planted to corn. Their May 1 condition is 88 per cent of normal. Grubs injured meadows in Cook, DuPage, Kendall and Sangamon counties.

Much clover was reported winter-killed.

## PASTURES.

There is a deficiency of 5 per cent in the area of pastures as compared with 1908.

Pastures have not made their usual growth, the unfavorable weather retarding them. Their May 1 condition is 86 per cent of a seasonable average in northern Illinois, 88 per cent in central Illinois, and 89 per cent in the southern division of the State.

Grubs are reported from Cook, Kendall, LaSalle, Putnam and Schuyler counties, and cut worms from Pulaski.

## SPRING PLOWING.

About the usual amount of spring work has been completed in central and southern Illinois, where with but few exceptions the soil is reported as excellent. Many counties in northern Illinois report the soil as wet and heavy, and the spring plowing somewhat delayed.

## LIVE STOCK.

## HORSES.

The number of horses reported on May 1 is 96 per cent as compared with 1908, and their May 1 condition 96 per cent of normal.

Distemper is reported from LaSalle, Livingston, Will, Champaign, Coles, Douglas, Hancock, Logan and Morgan. Hamilton county reports glanders. Effingham and Williamson counties report the death of many young colts, and Fulton county reports mares losing colts at foaling time.

## MULES.

There is a deficiency of 4 per cent in the number of mules in the State this year as compared with 1908, and their May 1 condition is 96 per cent of normal.

## CATTLE.

The number of cattle reported this year is 89 per cent as compared with last year.

Northern Illinois reports their condition May 1 as 95 per cent of normal, central Illinois 94 per cent, and southern Illinois 92 per cent, a State average of 94 per cent.

## DAIRY COWS.

In northern Illinois the number of dairy cows reported this year is 99 per cent, in central Illinois 97 per cent, in southern Illinois 96 per cent.

Their May 1 condition is 96 per cent of normal in northern Illinois, 97 per cent in central Illinois and 94 per cent in the southern division of the State.

## HOGS.

The number of hogs on hand May 1 as compared with last year is 80 per cent and their May 1 condition 92 per cent of normal.

Peoria, Stephenson, Winnebago and Adams counties report the loss of spring pigs.

Hog cholera is reported from Adams, Edgar and McDonough counties.

## SHEEP.

The number of sheep on hand May 1 is 96 per cent as compared with 1908.

Northern Illinois reports the May 1 condition of sheep as 98 per cent of normal, central Illinois 97 per cent, and southern Illinois 93 per cent, a State average of 96 per cent.

## FRUIT.

The prospect for a good fruit crop seems most favorable, though the apple crop in the southern division of the State will be short. San Jose scale is reported from Franklin, Hamilton, Jackson and Randolph counties.

But few counties report injury resulting from frost.

## GENERAL FARM NOTES.

With but few exceptions, bees are reported in good condition.

Coles and Cumberland counties report a large area of broom corn.

A marked increase is reported in the acreage of corn. This increase is due to less area devoted to winter wheat on account of drought last fall and the failure of many meadows and pastures, which caused them to be plowed up and planted to corn.

## WAGES PAID FARM HANDS.

The supply of farm hands this year is about the same as in 1908. Good farm hands are always in demand and their wages are steadily increasing.

The average wages paid farm hands during the past thirty years is given in the following table:

DIVISION.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board.
Northern.....	\$1 05	\$1 35	\$21 15	\$29 00
Central.....	90	1 15	18 85	25 30
Southern.....	70	95	15 45	21 50
Average.....	\$0 90	\$1 15	\$18 50	\$25 25

## CROP REPORT.

The wages paid farm help in the three divisions of the State, during the past thirty years, are given in the following tables:

## NORTHERN DIVISION.

YEAR.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not intended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

# ILLINOIS CROP REPORT

FOR

JUNE 20, 1909.

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE  
SPRINGFIELD, JUNE 20, 1909.

The information contained in this report was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### CORN.

An increase of 5 per cent is reported in the area devoted to corn, as compared with 1908.

Northern Illinois reports an increase in area of 4 per cent; Central Illinois of 3 per cent, and the Southern division of the State, 9 per cent.

The June 20 condition of corn is 17 points better than a year ago, being reported as 93 per cent of normal in Northern Illinois; 90 per cent in Central Illinois, and 92 per cent in the Southern division of the State.

Too much rain in many of the counties in the Central and Southern divisions of the State prevented proper cultivation, and fields are reported as weedy.

Cut, wire and grub worms, root lice and ants have injured corn in many counties of the State.

The earliest appearance of corn above ground this year was April 1, which date was reported from Saline county, but most of the corn made its appearance above ground from May 1st to 15th.

## CROP REPORT.

The quality of seed corn is reported as 100 per cent of normal in Northern Illinois, 101 per cent in Central Illinois, and 98 per cent in the Southern division of the State.

## BROOM CORN.

The area of broom corn is 94 per cent, as compared with 1908.

The June 20 condition of this crop is 97 per cent of normal in Northern Illinois, 82 per cent in Central Illinois, and 100 per cent in Southern Illinois, a State average of 93 per cent.

## SORGHUM.

The acreage of sorghum, as compared with 1908, is reported as 94 per cent, Northern Illinois reporting 97 per cent, Central Illinois, 91 per cent, and Southern Illinois, 95 per cent.

In Northern Illinois the June 20 condition is reported as 92 per cent, in Central Illinois, 84 per cent, and in Southern Illinois, 93 per cent, a State average of 90 per cent.

## WINTER WHEAT.

The June 20 condition of winter wheat in Northern Illinois is reported as 91 per cent, in Central Illinois, 90 per cent, and in Southern Illinois, 92 per cent, an average condition of 91 per cent, and an increase of 8 points over the May 1 condition.

Smut is reported from Morgan and Tazewell counties, and green bugs from Knox and Randolph. Edwards, Monroe, White and Randolph counties report Hessian fly in wheat. Lawrence county reports joint worms, and Gallatin county, a green louse in wheat.

Chinch bugs are reported from Clinton and Washington counties.

## SPRING WHEAT.

The area in Northern Illinois, where practically all the spring wheat is raised, is the same as last year, 100 per cent, and the June 20 condition is reported as 90 per cent of normal.

## OATS.

The June 20th condition of oats is reported the best in years.

Northern Illinois reports the June 20 condition as 94 per cent of normal, and Central and Southern Illinois, as 95 per cent, a State average of 95 per cent, and an increase of 6 points in the condition since the May 1 report.

Monroe county reports a green louse injuring the crop, and rust is reported from Knox county.

## RYE.

The June 20 condition of rye is reported as 95 per cent of a seasonable average in Northern Illinois, and 93 per cent in both Central and Southern Illinois. a State average of 93 per cent, and an increase of 5 points since the May 1 report.

## BARLEY.

The June 20 condition of barley in Northern Illinois, where most all of this crop is grown, is 94 per cent of normal.

## MEADOWS.

Meadows were so badly injured by the drought last fall that many fields were plowed up and planted to corn, hence a decrease of 12 per cent in the area of meadows, as compared with 1908, is reported.

The June 20 condition of meadows is 92 per cent of normal in Northern Illinois; 95 per cent in Central Illinois, and 85 per cent in Southern Illinois, a State average of 91 per cent.

## CLOVER.

There is a decrease of 17 per cent in the area devoted to clover, as compared with 1908, much clover being reported winter-killed.

In Northern Illinois the June 20 condition is 91 per cent, in Central Illinois, 95 per cent, and in the Southern division of the State, 89 per cent, a State average of 92 per cent.

## ALFALFA.

But 37 counties in the State report on the condition of alfalfa.

Northern Illinois reports its condition, June 20, as 94 per cent of a seasonable average, Central Illinois, 99 per cent, and Southern Illinois, 93 per cent.

## HUNGARIAN AND MILLET.

In Northern Illinois the area of Hungarian and millet is 98 per cent, as compared with last year, in Central Illinois, 90 per cent, and 95 per cent in the Southern division of the State.

## PASTURES.

There is a deficiency of 5 per cent in the area of pastures, as compared with 1908.

The weather has been favorable for the growth of pastures, their June 20 condition being reported as 97 per cent of normal.

In both Northern and Southern Illinois the condition of pastures is 97 per cent of normal, and in Central Illinois, 98 per cent.

## IRISH POTATOES.

There is an increase of 3 per cent in the area devoted to Irish potatoes, as compared with last year.

The June 20 condition of this crop is 98 per cent of a seasonable average in the Northern and Southern divisions, and 97 per cent in the Central division of the State.

## SWEET POTATOES.

There is a decrease of 3 per cent in the area devoted to sweet potatoes, as compared with 1908.

Their June 20 condition is 98 per cent of normal in Northern Illinois, 96 per cent in Central Illinois, and 95 per cent in the Southern division of the State.

## FIELD BEANS.

The area devoted to field beans is 4 per cent less than in 1908.

Northern Illinois reports their June 20 condition as 99 per cent of normal in Northern Illinois, 96 per cent in Central Illinois, and 95 per cent in the Southern division of the State.

## COW PEAS.

The area of cow peas, as compared with 1908, is 100 per cent in Northern Illinois, 103 per cent in Central Illinois, and 97 per cent in the Southern division of the State.

## TOBACCO.

No reports on area or condition of tobacco were received from Northern or Central Illinois; but in Southern Illinois an increase of 10 per cent in the area of tobacco is noted, and the June 20 condition is reported as 94 per cent of normal.

## FRUIT.

According to the reports of our correspondents, made to this Department June 20th, the apple crop will be very light this year.

Peaches and pears promise a fair yield, and the condition of small fruit is reported good, and the yield up to an average.

San Jose scale is reported from Clinton, Franklin, Hamilton and Lawrence counties, and curculio from Cook and Lee counties.

#### CHERRIES.

Northern Illinois reports the yield of cherries, 80 per cent, Central Illinois, 88 per cent, and the Southern division of the State, 72 per cent.

#### STRAWBERRIES.

The yield of strawberries in both Northern and Central Illinois is reported as 80 per cent, and 87 per cent in Southern Illinois.

#### RASPBERRIES.

Northern Illinois reports the yield of raspberries as 87 per cent of a seasonable average, Central Illinois, 95 per cent, and Southern Illinois, 86 per cent.

#### GOOSEBERRIES.

The yield of gooseberries in Northern Illinois is reported as 88 per cent of a seasonable average, 86 per cent in Central Illinois, and 94 per cent in the Southern division of the State.

#### CURRANTS.

The yield of currants is reported as 85 per cent in Northern Illinois, 83 per cent in Central Illinois, and 89 per cent in the Southern division of the State.

#### VINEYARDS.

In Northern Illinois the area of vineyards is 95 per cent, as compared with 1908, 97 per cent in Central Illinois, and 98 per cent in Southern Illinois.

The June 20 condition of vineyards is 93 per cent of normal, being 87 per cent in Northern Illinois; 94 per cent in Central Illinois, and 97 per cent in the Southern division of the State.

#### YOUNG LIVE STOCK.

##### PIGS.

The number of pigs reported this year, as compared with 1908, is 85 per cent of normal in Northern Illinois, and 83 per cent in both Central and Southern Illinois.

The June 20 condition of pigs is 96 per cent in Northern Illinois, and 95 per cent in both Central and Southern Illinois.

##### LAMBS.

The number of lambs reported this year is 97 per cent, as compared with 1908.

Their June 20 condition is 99 per cent of normal in Northern Illinois, and 98 per cent in both Central and Southern Illinois.

##### CALVES.

The number of calves reported this year is 94 per cent, compared with 1908, in Northern Illinois, and 95 per cent in the Central and Southern divisions of the State.

Their June 20 condition is 98 per cent of normal.

## COLTS.

The number of colts foaled this year, as compared with 1908, is 97 per cent, being 98 per cent in both Northern and Central Illinois and 94 per cent in the Southern division of the State.

Their June 20 condition is 98 per cent of normal, being 97 per cent in Northern Illinois, 99 per cent in Central Illinois, and 98 per cent in Southern Illinois.

The average value of colts at weaning time is reported as \$40 per head in Northern Illinois, \$55 in Central Illinois, and \$52 in the Southern division of the State.

The number of colts lost prior to weaning is reported as 8 per cent in both Northern and Central Illinois, and 5 per cent in Southern Illinois.

The average cost of service of stallions in Northern Illinois was \$14, in Central Illinois, \$13, and in Southern Illinois, \$10.

## WOOL.

The wool clip of 1909 was 2 per cent less than in 1908. In both Northern and Central Illinois it was 99 per cent, as compared with last year, and 95 per cent in the Southern division of the State.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase, of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,

*Secretary.*

# ILLINOIS CROP REPORT

FOR

AUGUST 1, 1909

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture

Springfield, August 1, 1909.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number four hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WHEAT.

The area seeded to wheat for the crop of 1909 was 1,154,404 acres, all but 81,352 acres being winter wheat.

Five per cent of the winter wheat area was winter-killed or otherwise destroyed, leaving 1,097,703 acres of wheat (spring and winter) for harvest.

The average yield per acre is larger than for several years, being 19 bushels, and the total yield 20,533,822 bushels.

The ruling price of wheat on August 1 was \$1.00 per bushel, which is the highest price reported since 1881, and the value of the crop is estimated at \$20,640,081.

Smut is reported from McDonough, Morgan and Madison counties.

## CROP REPORT.

The following table gives the area, yield and value of the wheat crop of the State during the past forty-nine years:

## WHEAT (SPRING AND WINTER).

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded instead of that harvested, as the amount required for seed is based on the area seeded last year, which was 1,154,404 acres. As one and one-third bushels per acre is used for seed, it will require 1,539,205 bushels to seed next year's crop. Allowing four bushels per capita for food, it takes, according to the 1900 census, which gives Illinois 4,821,550

inhabitants, 19,286,200 bushels for that purpose, so that 20,825,405 bushels will be required for home use.

As but 20,533,822 bushels were raised in this State this year, it will be necessary to import 291,583 bushels or equivalent in flour to fill the demands of the home market.

#### OATS.

The acreage sown to oats is reported as 2,760,426 acres, of which 1,670,464 acres are reported from northern Illinois, 887,341 acres from central Illinois, and 202,621 acres from the southern division of the State.

The average yield per acre for the State of 36 bushels is the highest reported since 1905 and the total yield amounts to 98,423,669 bushels.

The quality of oats was reported excellent, with but few exceptions where excessive rains had damaged it.

The ruling price of oats on August 1 was 39 cents per bushel and the total value of the crop \$38,128,135.

## CROP REPORT.

The following table gives the area, yield and value of the oats crop of the State during the past forty-nine years:

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	543,572	28	15,220,029	\$0 26	\$ 3,957,207	\$ 7 28	\$9 40	\$ 5,109,577		\$1,152,370

A table published elsewhere in this report gives the area, yield and value of the oats crop in each county in the State this year.

## WINTER RYE.

There are 54,138 acres of rye reported. The average yield per acre for the State of 20 bushels is the highest yield reported since 1902. The total yield amounted to 1,098,605 bushels.

The average price per bushel of 71 cents on August 1 is the best price obtained since 1881 and the total value of the crop is estimated at \$783,231.

## CROP REPORT.

7

The following table gives the area, yield and value of the past forty-nine rye crops grown in the State:

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	59,455	16	951,281	\$0 49	\$ 466,127	\$ 7 87	\$ 9 80	\$ 582,659		\$ 116,532

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

## BARLEY.

A slight increase is noted in the area devoted to barley this year, 30,872 acres being reported.

The average yield per acre was 28 bushels, the total yield amounting to 867,777 bushels.

The ruling price August 1 was 55 cents per bushel, making the total value of the crop \$475,871.

## CROP REPORT.

The following table gives the area, yield and value of the last forty-nine barley crops produced in the State:

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre	Total cost of production.	Profit.	Loss.

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

## HAY.

The area devoted to meadows is 2,046,488 acres and the average yield is reported as 1 3/4 tons per acre.

The total yield amounted to 2,891,187 tons and at the average price of \$8.40 per ton on August 1, the crop was worth \$24,268,000.

The yield of clover was 1 1/2 tons per acre in northern and central Illinois and 1 1/2 tons in southern Illinois. The August 1 condition of clover is excellent, being 93 per cent of normal.

## CROP REPORT.

9

The following table gives the area, yield and value of the last forty-nine hay crops produced in this State:

Year.	Number of acres.	Average yield per acre—tons.	Tons produced.	Price per ton.	Total value.	Value per acre.	Cost of production per acre	Total cost of production.	Profit.	Loss.

## CORN.

There is an increase of 516.182 acres devoted to corn this year as compared with 1908.

Northern Illinois reports 3,245,534 acres, central Illinois 3,121,091 acres, and southern Illinois 930,064 acres, a total area of 7,296,689 acres.

The August 1 condition of corn is 93 per cent of normal, which is 14 points better than the August 1 condition of last year.

Corn was needing rain badly in a number of counties when correspondents made their August 1 report.

Iroquois, Peoria, Christian and Piatt counties report corn as "firing."

## CROP REPORT.

## BROOM-CORN.

The August 1 condition of broom-corn is 97 per cent of a seasonable average in northern Illinois, 77 per cent in central Illinois and 87 per cent in the southern division, a State average of 87 per cent.

## SORGHUM.

The August 1 condition of sorghum was 91 per cent of normal, being reported as 91 per cent in northern Illinois, 88 per cent in central Illinois, and 93 per cent in the southern division of the State.

## PASTURES.

Northern Illinois reports the area of pastures as 2,020,812 acres, central Illinois 1,274,349 acres and southern Illinois 517,670 acres, a total area of 3,812,831 acres.

The August 1 condition of pastures is excellent, being 90 per cent of normal in northern Illinois, 97 per cent in central Illinois, and 96 per cent in southern Illinois, a State average of 94 per cent of normal.

A number of counties in the northern division of the State report pastures in need of rain.

## IRISH POTATOES.

The condition of Irish potatoes is reported as 94 per cent of normal in northern and central Illinois and 93 per cent in the southern division of the State.

## SWEET POTATOES.

The August 1 condition of this crop is 94 per cent of a seasonable average in northern Illinois, 91 per cent in central Illinois and 93 per cent in the southern division of the State.

## BUCKWHEAT.

A decrease of 4 per cent in the area of buckwheat, as compared with 1908, is reported.

The August 1 condition of buckwheat is reported as 97 per cent of normal in northern Illinois, 96 per cent in central Illinois and 100 per cent in the southern division of the State.

## TURNIPS AND OTHER ROOT CROPS.

The area of turnips and other root crops in northern Illinois is 98 per cent as compared with last year, and 97 per cent in the central and southern divisions of the State.

The August 1 condition of these crops is 93 per cent of a seasonable average.

## TOBACCO.

The August 1 condition of tobacco in northern Illinois, where but two counties report on this crop, is 70 per cent of normal.

No report is made on tobacco from central Illinois. The condition in the southern division is reported as 87 per cent of normal.

## CASTOR BEANS.

The August 1 condition of castor beans in northern Illinois is reported as 90 per cent of normal and 98 per cent in southern Illinois. Central Illinois makes no report on condition of this crop.

## COW PEAS.

In northern Illinois the August 1 condition of cow peas was 97 per cent of a seasonable average, in central Illinois 90 per cent and in the southern division of the State 96 per cent.

## FIELD BEANS.

The August 1 condition of field beans was 93 per cent of a seasonable average in northern Illinois, 89 per cent in central Illinois and 95 per cent in the southern division of the State.

## ALFALFA.

From our crop correspondents the names of growers of alfalfa in sixty counties of the State are reported.

As yet many of their attempts to raise this forage crop have been experimental, but with the adoption of the correct method of preparing the soil, selection of

seed, etc., the value of alfalfa as a feed and marketable product and its faithful returns for the time and labor devoted to its culture, will be evident.

Alfalfa is reported from a few counties as having been winter killed.

#### FRUIT.

But very few counties make an encouraging report on fruit. The yield is generally reported light and the quality inferior.

#### APPLES.

The August 1 condition of apples in northern Illinois was 36 per cent of normal, in central Illinois 48 per cent and in the southern division of the State 46 per cent.

Perry and Pulaski counties report circlio, and codling moth is also reported from Perry county.

#### PEACHES.

The August 1 condition of peaches is reported as 30 per cent of normal in northern Illinois, 54 per cent in central Illinois and 62 per cent in the southern division of the State.

#### PEARS.

The August 1 condition of pears is reported as 36 per cent of a seasonable average in northern Illinois, and 48 per cent in central and southern Illinois.

#### PLUMS.

In northern and central Illinois the August 1 condition of plums is reported as 47 per cent of normal and in the southern division of the State as 73 per cent.

#### GRAPES.

The August 1 condition of grapes was 90 per cent of normal in northern Illinois, 89 per cent in central Illinois and 84 per cent in the southern division of the State.

#### BLACKBERRIES.

The blackberry crop this year was 87 per cent of an average yield in northern Illinois, 83 per cent in central Illinois and 95 per cent in the southern division of the State.

#### QUINCES.

But few quinces are reported from northern Illinois where their August 1 condition is 37 per cent of normal. In central Illinois their condition is 69 per cent of normal and in southern Illinois 63 per cent.

#### LIVE STOCK.

The condition of live stock is reported as excellent this year. Pinkeye is reported from Fulton, Crawford, Pope and White counties. Distemper is reported from Christian, Logan, Morgan, Edwards, Randolph and Williamson counties. Fulton county reports epizootic. Hog cholera is reported from Pike county.

#### DRAIN TILE.

So far as can be ascertained there are now 740,909,628 feet of drain tile in the State, which gives an average of 27 feet to each acre of cultivated land in Illinois.

#### AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten

per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,  
Secretary.

# ILLINOIS CROP REPORT

FOR

DECEMBER 1, 1909.

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
• SPRINGFIELD, December 1, 1909.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number three hundred and fifty, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-two years, and their estimates, for a term of years, when compared with subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WINTER GRAIN.

#### WHEAT.

An increase of a little over 9 per cent is reported in the area seeded to wheat this fall, as compared with last year, 1,174,709 acres being reported.

Northern Illinois reports 45,226 acres, central Illinois 603,614 acres, and southern Illinois 525,869 acres.

The December 1 condition of the growing crop is 32 points better than that of a year ago, being 101 per cent of a seasonable average in northern Illinois, 104 per cent in both the central and southern divisions of the State.

The weather this fall was most favorable for the sowing and growth of this crop.

Hessian fly in wheat was reported from Adams, Christian, Edgar, Jersey, Shelby, Gallatin, St. Clair, Wabash and Washington counties.

Worms in wheat were reported from Clinton county and grasshoppers from Crawford. In Fulton county a small black worm worked some injury to wheat.

## CROP REPORT.

## RYE.

There is a decrease of 7 per cent in the area seeded to rye, as compared with last year, but 50,650 acres being reported.

Northern Illinois reports 40,524 acres, central Illinois 7,886 acres, and southern Illinois but 2,240 acres.

The condition of this crop, December 1, is excellent, being 102 per cent of a seasonable average, and 25 points better than the condition a year ago.

## CORN.

The area devoted to corn this year, 7,288,563 acres, is an increase of a little more than 7 per cent, as compared with the area in 1908, when 6,780,500 acres were reported.

Northern Illinois reports 3,237,408 acres, central Illinois 3,121,091 acres, and southern Illinois 930,064 acres.

The average yield per acre in northern Illinois was 37 bushels, in central Illinois 38 bushels, and in southern Illinois 30 bushels, a State average of 36 bushels.

The total corn crop of the State in 1909 amounted to 265,940,893 bushels, of which 120,306,562 bushels were produced in northern Illinois, 117,361,057 bushels in central Illinois, 28,273,274 bushels in the southern division of the State.

The ruling price of corn, December 1, was 52 cents per bushel, making the total value of the crop \$137,845,244.

The quality of the grain is 91 per cent of normal, being 89 per cent in northern Illinois, 93 per cent in central Illinois, and 92 per cent in the southern division of the State.

Corn was injured by the warm weather and frequent rains of the fall and a number of counties report corn as spoiling in the crib.

Insects such as cut, wire and grub worms injured corn in Boone, Bureau, Carroll, Cook, Du Page, Jo Daviess, Kane, Livingston, Will, Winnebago, Adams, Douglas, Sangamon and St. Clair counties. Ants injured corn in Boone and Pope counties, and chinchbugs are reported from Clinton, Hamilton and Washington counties. Root lice were reported from Du Page, Winnebago, Brown, Montgomery and Shelby counties.

The area, yield and value of the corn crop of the State for the past fifty years is given in the following table:

YEAR	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860.	3,839,159	30	115,174,770	42 $\frac{1}{2}$	\$48,944,277	\$12 74	\$10 50	\$40,311,169	\$8,633,108	.....

## CROP REPORT.

## BROOM-CORN.

The area devoted to broom-corn is reported as 5,620 acres.

The average yield per acre was 750 pounds, the total yield being 4,562,000 pounds.

The ruling price December 1 was \$198 per ton, the highest price recorded in the history of these reports, and the total value of the crop amounted to \$451,193.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

YEAR.	Acreage.	Av. yield per acre— pounds.	Total yield— pounds.	Price per ton.	Value of crop.
1877.....	14,566	458	6,674,747	\$ 71 20	\$ 237,594
1878.....	18,258	614	11,218,168	49 50	277,645
1879.....	17,664	632	11,161,238	86 75	484,195
1880.....	18,652	775	14,457,156	77 40	559,447
1881.....	17,887	1,437	25,708,250	128 50	1,651,739
1882.....	43,036	225	9,693,187	80 00	387,680
1883.....	33,922	1,000	32,922,000	90 00	1,481,710

## SORGHUM.

A decrease of 153 acres is noted in the area devoted to sorghum this year, but 3,068 acres being reported. The average yield per acre was 99 gallons and the total yield 303,907 gallons.

The ruling price, December 1, was 50 cents per gallon, the total value of the product being \$158,882.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

YEAR.	Acres.	Av. yield per acre— gallons.	Total number of gallons.	Price per gallon.	Value of crop.
1877.....	19,335	63	1,237,164	\$ 0 42	\$ 515,409

## CROP REPORT.

## BUCKWHEAT.

The area devoted to buckwheat is reported as 1,888 acres.

The average yield per acre was 19 bushels and the total yield 34,996 bushels.

The ruling price, December 1, was 70 cents per bushel, making the total value of the crop \$25,239.

The following table gives the area, yield and value of the buckwheat crop in this State for the past thirty-three years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.
1877.....	15,880	13	207,693	\$ 0 73	\$ 151,612

## TIMOTHY SEED.

There were produced 80,066 bushels of timothy seed in 1909.

The average price per bushel was \$1.85, and the total value of the crop at this price amounted to \$147,278.

The following table gives the amount and value of the crop in this State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	483,571	\$1 25	\$ 604,464
1878.....	261,559	1 25	326,949

## CROP REPORT.

## CLOVER SEED.

The amount of clover seed harvested in 1909 was 43,041 bushels.

The average price per bushel was \$6.50 and the total value of the crop amounted to \$280,871.

In the following table will be found the yield and value of the crop of clover seed for 1909, as compared with the thirty-two years preceding:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	64,686	\$4 80	\$ 310,493
1878.....	77,388	4 05	313,421

## HUNGARIAN AND MILLET SEED.

There were 39,588 bushels of Hungarian and millet seed produced in 1909.

The ruling price, December 1, was 95 cents per bushel, making the total value of the crop \$38,110.

The following table gives the yield and value of this crop since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$ 10,701
1878.....	26,787	55	14,733

## CROP REPORT.

## BEANS.

But 843 acres are reported as devoted to beans in 1909. The average yield per acre was 15 bushels and the total yield 12,587 bushels.

The ruling price, December 1, was \$2.30 per bushel, and at this price the crop was worth \$29,201.

The following table gives the area, yield and value of the 1909 crop of beans, together with those of thirty-two years preceding:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	1,545	13	19,955	\$ 1 50	\$ 29,916

## CROP REPORT.

13

## CASTOR BEANS.

The area devoted to castor beans is reported as 7,133 acres and the average yield per acre 13 bushels, making the total yield 94,951 bushels.

The total value of the crop at the ruling price, December 1, of \$1.40 per bushel, amounted to \$132,577.

In the following table is given the area, yield and value of this crop since 1877:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	4,503	3¼	17,538	\$ 1 10	\$ 18,512

## CROP REPORT.

## TOBACCO.

There were 2,309 acres of tobacco reported in 1909, of which 2,142 acres are reported from the southern division of the State.

The average yield per acre was 776 pounds, the total yield being 1,790,546 pounds.

The total value of the crop, at the ruling price, December 1, was \$149,609, an average price per pound of 8 cents.

The following table gives the area, yield and value of the crop in this State since 1876:

YEAR.	Acreage.	Av. yield per acre— pounds.	Total number of pounds.	Price per pound.	Value of crop.
1877.....	12,320	640	7,885,586	\$ 0 08	\$ 638,848

## CROP REPORT.

15

## PASTURES.

The area devoted to pastures in 1909 is reported as 3,807,796 acres.

The average value per acre for the season of 1909 was \$4.55 and the total value of pastures amounted to \$17,413,759.

In northern and central Illinois, where most of the pasture lands are located, the value is \$4.60 and \$4.95 respectively, and in the southern division of the State \$3.45.

The following table gives the area and value of pastures for thirty-three years past:

YEAR.	Acreage.	Value per acre	Value of crop.
1877.....	4,367,603	\$3 38	\$14,764,112
1878.....	3,983,450	3 10	12,324,657

## IRISH POTATOES.

An increase of 2,615 acres is reported in the area devoted to Irish potatoes this year, 76,292 acres being reported.

The average yield per acre was 97 bushels and the total yield amounted to 7,370,949 bushels.

The average price per bushel, December 1, was 60 cents, making the total value of the crop \$4,506,682.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

YEAR.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## SWEET POTATOES.

The area devoted to sweet potatoes in 1909 was 2,829 acres.

The total yield amounted to 319,336 bushels, an average of 113 bushels per acre.

The ruling price, December 1, was 85 cents per bushel, and the total value of the crop at this price amounted to \$267,997.

The following table gives the area, yield and value of the sweet potato crop of the State for the past thirty-three years:

YEAR.	Acreage.	Av. yield per acre-- bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$ 126,092
1878.....	1,729	67	116,944	85	99,402

1908.....	2,852	82	234,245	95	222,610
1909.....	2,829	113	319,336	85	267,997

## TURNIPS AND OTHER ROOT CROPS.

A decrease of 3 per cent is reported in the area of turnips and other root crops this year, but 372 acres being reported.

The average value per acre is \$173.44, and the total value \$64,519.

The average yield of turnips per acre was 117 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past thirty-three years:

YEAR.	Acreage.	Value per acre	Value of crop.
1877.....	7,056	\$ 39 55	\$279,136
1878.....	3,775	40 85	154,140
1879.....	3,139	230 15	722,444
1880.....	2,300	45 85	105,414

1907.....	409	157 58	64,449
1908.....	384	141 90	54,490
1909.....	372	173 44	64,519

## OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities, and are not of sufficient importance to be tabulated alone, but are of considerable value to producers.

The value of these miscellaneous crops for 1909 was reported as \$146,796.

## FRUIT.

On account of the meagre statistics furnished this department on the fruit crop, viz.: apples, peaches and pears, a correct estimate cannot be given.

## APPLES.

But 23,380 bushels of apples are reported produced this year.

The average price per bushel is reported as \$1.20, making the total value of the crop \$34,023.

The following table gives the number of bushels of apples and the value of the crops since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	5,395,351	\$ 0 80	\$4,316,281
1878.....	4,940,811	65	3,211,527

## CROP REPORT.

## PEACHES.

There were 3,582 bushels of peaches reported produced in 1909.

The average price per bushel was \$1.30, giving a total value of \$4,643.

The following table gives the quantity and value of the peaches produced in the State during the past thirty-three years:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	402,587	\$0 92	\$370,280
1878.....	607,292	62	376,521

## PEARS.

There were but 755 bushels of pears reported produced in 1909.

At the average price of \$1.25 per bushel, the total value of the crop amounted to \$955.

The following table gives the extent and value of the pear crop of the State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	16,313	\$1 35	\$22,704
1878.....	13,510	1 25	16,887

## CROP REPORT.

## GRAPES.

There were 505,985 pounds of grapes produced in 1909. Of this amount 91,047 pounds were produced in northern Illinois, 175,086 pounds in central Illinois, and 239,852 pounds in the southern division of the State.

The average price of 3 cents per pound gives a total value of \$15,780.

The following table gives particulars concerning the grape crop of the State for the past thirty-three years:

YEAR.	Pounds produced.	Price per pound.	Value of crop.
1877.....	3,002,748	\$0 03	\$92,782
1878.....	1,322,636	03	57,679

1909.....	505,985	03	15,780

## WINE.

The area in vineyards this year, 828 acres, is 3 per cent less than in 1908.

There were 21,301 gallons of wine produced in 1909, being an average of 26 gallons per acre.

The average price per gallon was 80 cents, the total value of the product at this price being \$17,190.

The following table gives the number of gallons of wine and the value thereof during the past thirty-three years:

YEAR.	Acreage.	Av. yield per acre— gallons.	Number of gallons produced.	Price per gallon.	Value of crop.
1877.....	2,612	61	158,944	\$1 20	\$ 191,933

## STRAWBERRIES.

The value of the strawberry crop for 1909 was reported as being \$37,649, of which \$25,456 was reported from northern Illinois, \$677 from central Illinois, and \$11,516 from the southern division of the State.

## WATERMELONS.

The value of watermelons sold in 1909 in northern Illinois is reported as \$30,773, in central Illinois \$2,890, in southern Illinois \$2,128, a total value of \$35,791.

## BEES AND HONEY.

There were 324,333 pounds of honey produced in 1909.

The average price obtained for that sold was 15 cents per pound, making the total value \$47,837.

The total number of hives of bees reported for 1909 was 54,985.

The following table gives the amount and value of honey produced in this State during the past nineteen years, together with the number of hives of bees:

YEAR.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252

## LIVE STOCK.

## HOGS.

According to the assessors' returns, there were 1,480,269 hogs in the State May 1, 1909. At the equalized value of \$2.00 per head, they were worth \$2,960,538.

The number marketed was 1,228,629, or 83 per cent of the whole number. The average weight of those marketed was 213 pounds, giving a total gross weight of 262,231,992 pounds. The average price per cwt. of hogs marketed was \$6.85, their value at this rate being \$17,988,866.

The supply of hogs on hand, December 1, was 76 per cent, and the average price per cwt. on that date \$7.45.

Hog cholera is reported from Knox, Edgar, McDonough, Menard, Morgan, Pike, Alexander and Effingham counties.

The following table gives the number of hogs assessed and marketed in 1909, as well as their weight and value, for the past fifty-four years:

YEAR.	Assessors' Returns.		Estimated per cent marketed.	Number fat hogs marketed.	Av. gross weight, per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.

## BEEF CATTLE.

The number of cattle in the State May 1, 1909, according to assessors' returns, was 1,691,686. At the equalized value of \$8.00 per head, they were worth \$13,533,488.

Twenty-three per cent of the whole, 389,087, were marketed during the year.

The average weight was 1,049 pounds, making the total weight 408,011,200 pounds.

## CROP REPORT.

27

The average price of those sold, prior to December 1, was \$5.05 per cwt., a total value of \$20,626,366.

The supply of beef cattle on hand December 1, 1909, was 81 per cent, and the average price per cwt. on that date was \$5.20.

Pinkeye is reported from Brown, Schuyler and Morgan counties. Clinton county reports some abortion of cows and Massac county reports calves dying of blackleg.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

YEAR.	Assessors' Returns.		Estimated per cent. marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.

## DAIRY COWS.

There were 558,335 dairy cows reported in Illinois in 1909.

The average value per head was \$47, making the total value \$26,398,929.

McHenry county reports tuberculosis prevalent among dairy cattle.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

YEAR.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878

## HORSES.

The number of horses reported by assessors this year is 973,503, and their equalized value per head \$25.56, the total value amounting to \$24,882,737.

The number of colts reported foaled in 1908 was 82,428.

Morgan county reports horses affected with pinkeye. A contagious tongue disease among horses is reported from Douglas county. Distemper is reported from Douglas, Fulton, Hancock and Vermilion counties, and catarrhal fever in Scott county. Spinal meningitis is reported from Jackson county and a few horses died as a result of lung trouble in Champaign county. Horses died after eating corn stalks in Hardin, Wabash and Wayne counties.

The following table gives the number of horses assessed in the State since 1855 and their equalized valuation, as well as the number of colts foaled each year since 1878:

YEAR.	Assessors' Returns.		Number colts foaled.

## CROP REPORT.

## SHEEP.

There were 378,927 sheep reported by assessors this year. Their equalized value is \$1.32 per head, making their total equalized value \$500,184. Of the number assessed, 22 per cent, 83,364, were marketed.

Their total gross weight amounted to 8,568,033 pounds, an average weight of 103 pounds.

The average price received for those marketed prior to December 1 was \$4.89 per cwt., making their total value \$413,094.

The supply of sheep on hand December 1, 1909, was 88 per cent as compared with last year, and the average price per cwt. \$4.95.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

YEAR.	Assessors' Returns.		Estimated per cent. marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.

## CROP REPORT.

## BUTTER.

The quantity of butter reported sold in 1909 was 10,534,606 pounds.

The average price per pound was 29 cents and the total value of butter sold amounted to \$3,053,062.

In the following table will be found the quantity and value of the butter sold in Illinois during the past thirty-three years:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	18,970,227	\$0 20	\$3,794,045
1878.....	17,997,652	15	2,699,648

## CHEESE.

There were 655,102 pounds of cheese sold in 1909.

The average price per pound was 17 cents and the total value \$113,168.

The following table shows the quantity and value of the cheese sold in the State since 1876:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	4,502,671	\$0 12	\$540,320
1878.....	5,139,914	10	513,691

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1909.

## POULTRY AND EGGS.

The value of the poultry sold in the State in 1909 was \$1,572,693.

In northern Illinois the value of poultry sold was \$937,500, in central Illinois \$384,859, and the southern division of the State \$250,334.

The value of eggs sold in 1909 in the State is 6 per cent greater than last year.

Northern Illinois reports the value of eggs sold as \$1,026,229, central Illinois \$334,414, and southern Illinois \$484,070, a total value of \$1,844,713.

## SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1909:

Corn .....	\$ 137,845,244
Winter wheat.....	18,960,408
Spring wheat .....	1,679,673
Oats .....	38,128,135
Rye .....	783,231
Barley .....	475,871
Buckwheat .....	25,239
Hay .....	24,268,000
Timothy seed .....	147,278
Clover seed .....	280,871
Hungarian and millet seed .....	38,110
Irish potatoes .....	4,506,682
Sweet potatoes .....	267,997
Turnips and other root crops .....	64,519
Broom-corn .....	451,193
Sorghum .....	158,882
Beans .....	29,201
Castor beans .....	132,577
Tobacco .....	149,609
Other crops not named .....	146,796
Apples .....	34,023
Peaches .....	4,643
Pears .....	955
Grapes .....	15,780
Strawberries .....	37,649
Watermelons .....	35,791
Other fruits and berries .....	29,051
Wine .....	17,190
Honey .....	47,837
*Horses (equalized value) .....	24,882,737
*Beef cattle (equalized value) .....	13,533,488
Dairy cows .....	26,398,929
*Hogs (equalized value) .....	2,960,538
*Sheep (equalized value) .....	500,184
Wool .....	451,221
Milk sold .....	16,515,951
Cream sold .....	1,555,825
Butter sold .....	3,053,062
Cheese sold .....	113,168
Poultry sold .....	1,572,693
Eggs sold .....	1,844,713
Total .....	\$ 322,144,944

\*NOTE—The equalized value as fixed by the State Board of Equalization, represents but one-fifth of the actual value.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season and immediately after harvest, when the information as to condition and yield is most needed, to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition of yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or 10 per cent, is recorded 110; a decrease of 5 per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for the term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

## NAMES AND POSTOFFICE ADDRESSES

—OF—

## CROP CORRESPONDENTS

## STATE BOARD OF AGRICULTURE

FOR THE YEAR 1909

WITH DATE OF APPOINTMENT.

## ADAMS COUNTY—

- 1879. G. W. Dean, R. F. D. No. 1, Adams.
- 1883. H. C. Cupp, Fall Creek.
- 1888. C. H. Rankin, Fall Creek.
- 1904. A. R. Wallace, Jr., Camp Point.

## ALEXANDER COUNTY—

- 1907. G. W. Childress, Olive Branch.
- 1909. J. L. King, Elco.
- 1909. Herman Bunch, McClure.

## BOND COUNTY—

- 1885. J. B. Denny, Sorento.
- 1885. W. H. Taylor, Greenville.
- 1898. L. E. Alexander, Reno.
- 1904. A. O. Donnell, Greenville, R. No. 1.
- 1908. N. Cowen, Sorento.

## BOONE COUNTY—

- 1899. O. S. Cohoon, Belvidere.
- 1909. Phil H. Sanford, Garden Prairie.
- 1909. John A. Kelley, Argyle.

## BROWN COUNTY—

- 1889. W. B. Rigg, Mt. Sterling.
- 1909. E. F. Byrns, Mt. Sterling, R. F. D.
- 1909. W. D. Mobley, Mt. Sterling, R. F. D.
- 1909. C. J. Davis, Timewell.
- 1909. J. M. Cronin, Mt. Sterling, R. F. D.

## BUREAU COUNTY—

- 1897. O. W. Mason, Buda.
- 1907. D. D. Draper, New Bedford.
- 1907. Frank J. Nye, Tiskilwa.
- 1907. John Johnson, Walnut, R. R. D. No. 4.

- 1907. E. B. Anthony, Tiskilwa.

## CALHOUN COUNTY—

- 1881. M. A. Kamp, Kampsville.
- 1906. J. A. Walston, Kampsville.
- 1909. Wm. Franke, Batchtown.

## CARROLL COUNTY—

- 1899. Henry Daehler, Chadwick.
- 1909. Wm. Phillips, Mt. Carroll.
- 1909. Geo. Lang, Chadwick.

## CASS COUNTY—

- 1878. John Beggs, Ashland.
- 1896. W. W. Mathew, Ashland, R. No. 2.
- 1903. M. L. Crum, Virginia.

## CHAMPAIGN COUNTY—

- 1908. Dr. F. M. Conkey, Homer.
- 1885. W. E. Dawley, Seymour, R. F. D. No. 43.
- 1907. R. E. Chambers, Sadorus.
- 1907. Reuben Roughton, Rantoul.

## CHRISTIAN COUNTY—

- 1877. A. B. Herdman, Morrisonville.
- 1878. O. S. Nash, Sharpsburg.
- 1897. Basil Hill, Taylorville.
- 1904. J. Earle White, Morrisonville.
- 1908. C. W. Ebert, Owaneco.
- 1909. E. Dixon, Pana.

## CLARK COUNTY—

- 1880. Jerry Ishler, Martinsville.
- 1909. Jesse M. Funk, Casey.

## CLAY COUNTY—

- 1902. Israel Mills, Clay City.
- 1904. Leslie F. Brissenden, Flora.
- 1904. Jno. T. Campbell, Louisville.

## CLINTON COUNTY—

- 1909. Jos. Hiemann, Albers.
- 1901. Frank Bassler, Trenton.
- 1907. Theo. W. Timmerman, Breese.

## COLES COUNTY—

- 1905. John W. Black, Humboldt.
- 1905. James A. Walker, Lerna.
- 1905. E. E. Boyer, Ashmore.
- 1909. Sam Rardin, Rardin.

## COOK COUNTY—

1880. E. Wheeler, Arlington Heights.  
 1907. M. L. Staples, Palatine.  
 1907. John T. Cooper, Orland.  
 1907. C. Doctor, Orland.

## CRAWFORD COUNTY—

1877. William L. Heustis, Robinson.  
 1882. William F. Wood, Oblong.  
 1897. W. M. Hart, Annapolis.  
 1900. Clinton Newlin, Hutsonville.  
 1909. T. W. Richards, West York.

## CUMBERLAND COUNTY—

1882. James M. Albin, Neoga.  
 1887. David B. Green, Toledo.  
 1897. J. L. Mattoon, Greenup.

## DE KALB COUNTY—

1906. John L. Storey, Shabbona, R. F. D. No. 2.

## DE WITT COUNTY—

1882. W. R. Carle, Wapella.  
 1897. W. H. Oglevee, Clinton.  
 1898. C. E. Robb, Clinton.

## DOUGLAS COUNTY—

1887. William Iles, R. F. D. No. 6, Tuscola.  
 1892. Perry N. Howe, R. F. D. No. 3, Tuscola.  
 1909. W. F. Goodspeed, Tuscola.

## DU PAGE COUNTY—

1904. E. W. Plane, West Chicago.  
 1904. F. A. Rogers, Downers Grove.

## EDGAR COUNTY—

1892. C. D. Smith, Dudley, R. R. No. 12.  
 1904. F. L. Moss, Edgar.  
 1909. Winfield H. Scott, Chrisman, R. F. D. No. 26.  
 1909. John O. Honnold, Kansas.

## EDWARDS COUNTY—

1889. Ira Gould, Bone Gap.  
 1909. J. R. Doty, Albion.  
 1909. R. P. Roby, West Salem, R. F. D.  
 1909. Chas. M. Crawford, Albion, R. F. D. No. 1.

## EFFINGHAM COUNTY—

1883. George W. Strong, Dietrich.  
 1883. T. J. Dunn, Dietrich, R. F. D. No. 2.  
 1902. Chas. Blakely, Altamont.

## FAYETTE COUNTY—

1892. A. C. Davis, Farina.  
 1907. A. H. Hicks, St. Elmo.

## FORD COUNTY—

1879. S. J. LeFevre, Gibson City.  
 1892. W. B. Flora, Paxton.  
 1902. E. E. Bishop, Piper City.

## FRANKLIN COUNTY—

1889. John A. Coleman, West Frankfort.  
 1907. M. V. Webb, Benton, R. R. No. 2.  
 1904. C. M. Upchurch, Ewing.  
 1905. J. F. Ice, West Frankfort.  
 1907. G. D. Dimmick, West Frankfort.

## FULTON COUNTY—

1903. C. E. Chick, Vermont.  
 1904. Abram Wilson, Fairview.  
 1908. Russell Fluke, Lewistown.

## GALLATIN COUNTY—

1889. John M. Bowling, Ridgeway.  
 1906. Ed. Rice, Ridgeway.  
 1909. John B. Walters, Shawnee-town.  
 1909. Henry J. Fox, Junction, R. R. No. 2.  
 1909. W. A. Walthen, Equality.  
 1909. J. C. Anderson, Omaha.

## GREENE COUNTY—

1902. L. E. Prindle, Roodhouse.  
 1907. A. J. Johnson, Barrow.  
 1907. J. F. Doyel, Barrow.

## GRUNDY COUNTY—

1892. Wm. Reardon, Morris.

## HAMILTON COUNTY—

1887. Geo. K. Edwards, McLeansboro.  
 1889. J. D. Lockwood, McLeansboro.  
 1889. J. M. Weldin, McLeansboro.

## HANCOCK COUNTY—

1877. E. J. Baxter, Nauvoo.  
 1885. C. M. McMillan, Carthage, R. R. No. 2.  
 1906. Geo. E. Campbell, La Harpe, R. F. D. No. 2.  
 1907. Fred G. Miner, Plymouth, R. R. No. 1.

## HARDIN COUNTY—

1892. John Gross, Gross.

## HENDERSON COUNTY—

1898. D. A. Whiteman, Biggsville.  
 1907. L. E. Van Arsdale, Stronghurst.  
 1908. E. C. Hutton, Terre Haute.

## HENRY COUNTY—

1889. Horace S. Gilbert, Geneseo.  
 1908. D. S. Brown, Geneseo, R. R. No. 3.

## IROQUOIS COUNTY—

1879. Robert Caldwell, Sheldon.  
 1897. Herman Salmon, Milford, R. R. No. 2.  
 1908. John Fry, Donavan, R. R. No. 2.  
 1897. Peter Wright, Clifton.

## JACKSON COUNTY—

1904. H. G. Easterly, Carbondale.  
 1904. Peter W. Griffith, Murphysboro.  
 1907. A. W. Williams, Ava.  
 1907. J. B. Williamson, Ava.

## JASPER COUNTY—

1902. W. A. Kibler, Yale.  
 1906. G. A. Clark, Hunt City.

## JEFFERSON COUNTY—

1879. E. S. Noleman, R. F. D. No. 2, Centralia.  
 1897. A. J. Cook, Opdyke.  
 1907. E. B. O. Dayton, Belle River.

## JERSEY COUNTY—

1891. M. C. Stanley, Jerseyville.  
 1891. Wm. Lawler, Nutwood.  
 1891. James M. Segraves, Dow, R. F. D.  
 1909. S. H. Ruyle, Medora.

## JO DAVIESS COUNTY—

1885. Geo. W. Pepon, Warren.  
 1904. W. G. Curtiss, Stockton.

## JOHNSON COUNTY—

- 1886. S. P. Thacker, Ozark, R. R. No. 1.
- 1894. Thos. B. Gore, Buncombe, R. F. D. No. 2.
- 1909. Wm. M. Grissom, Jr., Vienna.

# ILLINOIS CROP REPORT

FOR

May 1, 1910

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
SPRINGFIELD, May 1, 1910.

The information contained in this report was obtained from the reports of correspondents mailed to this department the first day of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty years, and their estimates for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WINTER WHEAT.

Of the 1,174,709 acres seeded last fall for harvest in 1910, it is estimated that 125,296 acres or about 11 per cent has been winter-killed or destroyed by floods or Hessian fly, leaving 1,049,413 acres for harvest.

In northern Illinois the area destroyed was 6 per cent, in central Illinois 11 per cent and in the southern division of the State 10 per cent.

The condition of the growing crop on May 1 is 87 per cent of normal.

Northern Illinois reports the condition as 93 per cent, central Illinois 81 per cent and southern Illinois 86 per cent.

Considerable wheat is reported as having a thin stand. The hot, dry weather of March was not favorable for its growth.

Hessian fly is reported from Moultrie, Schuyler, Scott, Clay, Clinton, Gallatin, Jackson, Massac, Monroe, Perry, Randolph and St. Clair counties.

Chinchbugs are reported from Clinton, Marion, Randolph, St. Clair and Washington counties.

Rust is reported from Gallatin and Pope counties.

### SPRING WHEAT.

There is a slight increase in the area seeded to spring wheat in northern Illinois this year, and the May 1 condition is 97 per cent of normal.

In the central division where but two counties, Sangamon and Tazewell, report on this crop, the condition is 82 per cent of normal.

In Monroe county, the only one reporting on spring wheat in the southern division, the May 1 condition is 75 per cent of normal.

## CROP REPORT

## OLD WHEAT.

Of the 20,533,822 bushels of wheat raised in Illinois last year it is estimated that there was on May 1, 1,944,087 bushels, or about 9 per cent, in the producers' hands.

Northern and central Illinois report 9 per cent of the crop in first hands and southern Illinois 10 per cent.

The following table gives the amount of old wheat in first hands May 1 since and including 1880:

Year Produced	Crop in bushels.	Per cent crop on hand following May 1.	Amount crop in producers' hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.
1880	56,508,309	15	8,476,246	39,851,883	
1881	22,374,163	13	2,924,039	5,765,414	
1882	52,323,261	15	8,174,634	36,214,133

## WINTER RYE.

There were 50,650 acres reported seeded to rye last fall and the May 1 report shows that a little less than 2 per cent of it has been winter-killed, leaving 49,828 acres for harvest.

The May 1 condition is 97 per cent of normal in northern Illinois, 91 per cent in central Illinois and 92 per cent in southern Illinois, a State average of 93 per cent.

## OATS.

There is an increase of 4 per cent in the area seeded to oats for the 1910 crop as compared with last year.

The May 1 condition of oats is 94 per cent of a seasonable average in northern Illinois, 92 per cent in central Illinois and 93 per cent in the southern division, a State average of 93 per cent.

## BARLEY

The area devoted to barley in northern Illinois is 5 per cent less than last year and its May 1 condition is 95 per cent of normal. But very little barley is grown in central and southern Illinois.

## OLD CORN.

The Illinois corn crop of 1909, as reported to this Department was 265,940,893 bushels. Of this amount about 29 per cent or 77,458,339 bushels, was in the producers' hands on May 1.

Livingston county reported the largest corn crop in 1909, 11,658,152 bushels.

The following table gives the amount of old corn in the producers' hands May 1, the past thirty-one years, as well as the extent of the crop produced each year:

Year Produced.	Crop	Per cent corn on hand following May 1.	Bushels corn in producers' hands following May 1.
1879	305,913,277	32	99,229,889
1880	250,697,036	28	71,929,343
1881	174,491,706	21	37,445,964

1908	213,366,624	24	50,757,447
1909	265,940,893	29	77,458,339
Average.....	233,268,327	30	68,864,806

## MEADOWS.

The area devoted to meadows is 95 per cent as compared with last year. Their May 1 condition is 98 per cent of normal in northern Illinois, 94 per cent in central Illinois and 91 per cent in southern Illinois, a State average of 94 per cent.

The dry weather of March and the frosts of April injured meadows to some extent.

## PASTURES.

There is a deficiency of 3 per cent in the area of pastures as compared with 1909. The condition of pastures May 1 is excellent, being 98 per cent of normal.

## SPRING PLOWING.

Both the weather and the condition of the soil have been most favorable for farm work this spring and the same is farther advanced than usual on May 1.

About 75 per cent of the spring plowing was reported as completed at this date.

With the exception of a few counties, the soil was reported as excellent for working.

#### LIVE STOCK.

##### Horses.

The number of horses reported May 1 is 96 per cent as compared with 1909, and their May 1 condition is 98 per cent of normal.

Distemper is reported from Henry, Marshall, Ogle, Stephenson, Champaign, DeWitt, Douglas, Macon, McDonough, Morgan, Schuyler, Edwards, Fayette, Gallatin, Randolph, Saline and Wayne counties. Pinkeye is reported from Alexander county and Richland county reports a number of colts dying immediately after birth.

Douglas county reports mares losing colts at foaling time.

Henry county reports a number of colts affected with navel trouble.

Jo Daviess reports influenza.

##### Mules.

There is a deficiency of 5 per cent in the number of mules in the State this year as compared with 1909, and their May 1 condition is 99 per cent of normal.

##### Cattle.

The number of cattle reported this year is 88 per cent as compared with last year.

Their May 1 condition is reported as 98 per cent of normal in northern and central Illinois and 96 per cent in the southern division of the State.

##### Dairy Cows.

In northern Illinois the number of dairy cows reported is 98 per cent as compared with last year and 96 per cent in the central and southern divisions.

Their May 1 condition is 99 per cent of normal in northern and central Illinois and 97 per cent in the southern division of the State.

McHenry county reports tuberculosis getting more prevalent, symptoms being seen very plainly in many herds.

##### Hogs.

The number of hogs on hand May 1 is but 75 per cent as compared with 1909, and their May 1 condition is 97 per cent of normal.

Henderson county reports a number of young pigs dying and hog cholera is reported from McDonough and Wayne counties.

##### Sheep.

The number of sheep reported is 95 per cent as compared with 1909 and their May 1 condition is 98 per cent of normal.

#### FRUIT.

The abnormal temperature of March caused the trees to blossom early and the prospect for the fruit crop of 1910 was most encouraging until the frosts of April 22, 23 and 24.

Since that time the outlook has been most unfavorable though many of our correspondents are hopeful regarding the crop of strawberries and blackberries. In the southern part of the State apples are expected to average from one-fourth to one-half a crop.

##### BEEES.

Bees are reported as having suffered from the severe winter, many having died.

## WAGES PAID FARM HANDS.

There is a steady increase in the wages paid to farm hands, but the supply is reported not quite equal to the demand.

The average wages paid farm hands for the past thirty-one years is given in the following table:

Division	Per Day.		Per Month	
	With board	Without board	With board.	Without board.
Northern .....	\$1.10	\$1.40	\$21.40	\$29.30
Central .....	.90	1.15	19.05	25.50
Southern .....	.70	.95	15.60	21.70
Average .....	\$0.90	\$1.15	\$18.70	\$25.50

The wages paid farm help in the three divisions of the State, during the past thirty-one years, are given in the following tables:

## NORTHERN DIVISION.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not intended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

SPRINGFIELD:  
H. W. ROKKER COMPANY, PRINTERS AND BINDERS  
1910

## CROP REPORT

Wire worms are reported from Cook, Henry, Jo Daviess, Kankakee, Marshall, Stark, Stephenson, Cass, Christian, Logan, Piatt, Schuyler, Gallatin and Jefferson counties.

Root louse is reported from Cook, Putnam, Winnebago, Champaign, Macoupin, Clay and Gallatin counties.

Grubs are reported from Grundy, Henry, Kendall, Putnam and Winnebago counties, and ants were working on corn in Jasper and Johnson counties.

## BROOM CORN.

There is an increase of 5 per cent in the area of broom corn this year.

The June 20 condition of this crop is 80 per cent of normal in Northern Illinois, 91 per cent in Central Illinois, and 90 per cent in the Southern division of the State.

## SORGHUM.

The acreage of sorghum, as compared with 1909, is reported as 98 per cent. In Northern Illinois its June 20 condition was 82 per cent of normal, in Central Illinois 90 per cent, and in Southern Illinois 85 per cent, a State average of 86 per cent.

## WINTER WHEAT.

The June 20 condition of winter wheat in Northern Illinois is reported as 92 per cent, in Central Illinois 79 per cent, and in Southern Illinois 81 per cent, a State average of 84 per cent.

Hessian fly is reported from Henderson, Knox, Adams, Brown, Calhoun, Christian, Clark, Douglas, Edgar, Fulton, Greene, Logan, Macoupin, McDonough, Menard, Montgomery, Morgan, Moultrie, Pike, Sangamon, Schuyler, Scott, Shelby, Tazewell, Bond, Clay, Clinton, Crawford, Effingham, Fayette, Franklin, Gallatin, Jackson, Jasper, Lawrence, Madison, Marion, Monroe, Perry, Pope, Randolph, Richland, Saline, St. Clair, Union, Wabash, Washington, Wayne, White and Williamson counties.

Chinchbugs are reported from Bond, Jefferson, Marion, Perry, Randolph and Washington counties.

Joint worms in wheat are reported from Lawrence county.

## SPRING WHEAT.

There is a slight increase in the area of this crop in Northern Illinois, where practically all the spring wheat is raised, and the June 20 condition is reported as 93 per cent of normal.

## OATS.

The June 20 condition of oats is excellent, being 96 per cent of a seasonable average and an increase of 3 points over the May 1 condition. In Northern Illinois the condition is 92 per cent, in Central Illinois 95 per cent, and in Southern Illinois 100 per cent.

Rust is reported from Henderson, McDonough and Piatt counties. Smut is reported from Coles, Moultrie and Piatt. Menard county reports oat louse and McLean county reports oats as "firing."

Greenbugs were reported from Sangamon and Clinton counties. This crop was needing rain badly in Northern Illinois.

## RYE.

The June 20 condition of rye is reported as 93 per cent of a seasonable average in Northern Illinois, 95 per cent in Central Illinois, and 92 per cent in the Southern division of the State, a State average of 93 per cent.

## BARLEY.

The June 20 condition of barley in Northern Illinois, where most all of this crop is grown, is 96 per cent of normal.

## MEADOWS.

There is a decrease of 5 per cent in the area of meadows as compared with 1909. Their June 20 condition is 85 per cent of normal in Northern and Central Illinois and 72 per cent in Southern Illinois, a State average of 81 per cent.

## CLOVER.

There is a decrease of 4 per cent in the area devoted to clover, as compared with 1909.

In Northern Illinois the June 20 condition is 93 per cent of normal, in Central Illinois 94 per cent, and in Southern Illinois 91 per cent.

## ALFALFA.

The June 20 condition of alfalfa is reported from forty-eight counties in the State and is 94 per cent of a seasonable average, being 94 per cent in Northern Illinois, 95 per cent in Central Illinois, and 93 per cent in the Southern division of the State.

## HUNGARIAN AND MILLET.

In Northern Illinois the area of this crop is 100 per cent, as compared with 1909; in Central Illinois 95 per cent, and 96 per cent in the Southern division of the State.

## PASTURES.

There is a deficiency of 3 per cent in the area of pastures, as compared with last year, and their June 20 condition is 92 per cent of normal. Many counties report the need of rain.

## IRISH POTATOES.

There is a slight decrease in the area devoted to Irish potatoes, as compared with 1909.

The June 20 condition of this crop is 97 per cent of a seasonable average, being 94 per cent in Northern Illinois, 97 per cent in Central Illinois, and 99 per cent in the Southern division of the State.

## SWEET POTATOES.

There is a decrease of 5 per cent in the area devoted to sweet potatoes this year.

Their June 20 condition is 91 per cent of normal, being 96 per cent in Northern Illinois, 92 per cent in Central Illinois, and 86 per cent in the Southern division of the State.

## FIELD BEANS.

A decrease of 1 per cent is reported in the area of field beans, as compared with last year, and their June 20 condition is 91 per cent of normal.

## COW PEAS.

The area of cow peas, as compared with 1909, is 102 per cent in Northern Illinois, 97 per cent in Central Illinois, and 95 per cent in Southern Illinois.

## TOBACCO.

There is an increase noted this year in the area of tobacco. Douglas county reports the increase as 200 per cent, as compared with 1909, and the condition as 95 per cent of normal. In the Southern division, where nearly all this crop is raised, the area is reported as 93 per cent and the condition as 93 per cent of normal.

## CROP REPORT

## FRUIT.

There will be but a light yield of fruit in Illinois this year, the frosts of the latter part of April being responsible for this condition. Strawberries made a fair yield and with favorable weather conditions blackberries promise well. There are practically no cherries, pears, peaches, plums, and but few grapes. A light yield of apples is reported from the Southern division of the State, averaging about one-fourth of a crop.

## CHERRIES.

The yield of cherries for 1910 is reported as but 8 per cent of a seasonable average.

## STRAWBERRIES.

The yield of strawberries was 64 per cent of a seasonable average in Northern and Central Illinois and 86 per cent in the Southern division of the State.

## RASPBERRIES.

Northern Illinois reports the yield of raspberries as 42 per cent of a seasonable average, Central Illinois 48 per cent, and Southern Illinois 75 per cent, a State average of 55 per cent.

## GOOSEBERRIES.

The yield of gooseberries this year is but 27 per cent of a seasonable average.

## CURRANTS.

The yield of currants for 1910 is reported as 21 per cent of a seasonable average.

## VINEYARDS.

The area of vineyards is reported as 91 per cent, as compared with 1909.

Their June 20 condition is 37 per cent of normal in Northern and Southern Illinois, and 28 per cent in the Southern division of the State.

## YOUNG LIVE STOCK.

## PIGS.

The number of pigs reported this year, as compared with 1909, is 92 per cent of normal in both Northern and Central Illinois, and 85 per cent in the Southern division of the State. The June 20 condition of pigs is 99 per cent of normal in Northern Illinois and 98 per cent in Central and Southern Illinois.

## LAMBS.

The number of lambs reported this year is 94 per cent, as compared with 1909.

Their June 20 condition is 99 per cent of normal in Northern Illinois, 98 per cent in Central Illinois, and 97 per cent in the Southern division of the State.

## CALVES.

The number of calves on hand, as compared with last year, is 96 per cent of normal in Northern Illinois and 94 per cent in Central and Southern Illinois.

Their June 20 condition is 100 per cent of normal in Northern Illinois, 99 per cent in Central Illinois and 97 per cent in the Southern division of the State.

## COLTS.

The number of colts foaled this year, as compared with 1909, is 97 per cent, and their June 20 condition is 98 per cent of normal.

The average value of colts at weaning time is reported as \$53 in Northern Illinois, \$62 in Central Illinois, and \$59 in the Southern division of the State.

The number of colts lost prior to weaning is reported as 9 per cent in Northern Illinois, 7 per cent in Central Illinois and 5 per cent in the Southern division of the State.

The average cost of service of stallions in Northern Illinois was \$15, in Central Illinois \$13, and in Southern Illinois \$10.

#### WOOL.

The wool clip of 1910 was 3 per cent less than in 1909. In both Northern and Central Illinois it was 98 per cent, as compared with last year, and 94 per cent in the Southern division of the State.

#### AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,  
Secretary.

# AREA AND CONDITION OF CORN—Continued.

# ILLINOIS CROP REPORT

FOR

AUGUST 1, 1910

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture  
Springfield, August 1, 1910.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-one years and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WHEAT.

The area seeded to wheat for the crop of 1910 was 1,272,528 acres, all but 62,973 acres being winter wheat.

Eight per cent of the winter wheat area was winter-killed or destroyed by floods or Hessian fly, leaving 1,171,471 acres of wheat (spring and winter) for harvest.

The average yield per acre was 16 bushels, the total yield being 18,702,068 bushels. The quality of wheat is reported as generally good, but the yield light.

Fly in wheat was reported from Christian, Hancock, McDonough, Schuyler, Effingham, Franklin, Jasper, Lawrence, Pulaski, Richland and St. Clair counties. Smut is reported from Morgan county and rust from Richland.

The ruling price of wheat August 1 was 98c per bushel, and the value of the crop is estimated at \$18,306,348.

## CROP REPORT

The following table gives the area, yield and value of the wheat-crop of the State during the past fifty years:

## WHEAT (SPRING AND WINTER).

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded instead of that harvested, as the amount required for seed is based on the area seeded last year, which was 1,272,528 acres. As one and one-third bushels per acre is used for seed, it will require 1,696,703 bushels to seed next year's crop. Allowing four bushels per capita for food, it takes, according to the 1900 census, which gives Illinois 4,821,550 inhabitants, 19,286,200 bushels for that purpose, so that 20,982,903 bushels will be required for home use. As but 18,702,068 bushels were raised in this State this year, it will be necessary to import 2,280,835 bushels or equivalent in flour to fill the demands of the home market.

## OATS.

An increase of 233,531 acres is noted in the area seeded to oats. Northern Illinois reports the area as 1,842,787 acres, Central Illinois 910,757 acres, Southern Illinois 240,413 acres, a total area of 2,993,957 acres.

The average yield per acre for the State is 36 bushels, and the total yield amounted to 108,925,373 bushels, which is the largest yield recorded since 1905.

Northern Illinois reports the yield as 36 bushels per acre, Central Illinois 33 bushels, and Southern Illinois 33 bushels. Throughout the State oats are reported excellent, both in yield and quality.

The ruling price of oats on August 1 was 34 cents per bushel, and the total value of the crop amounted to \$37,522,029.

## CROP REPORT

The following table gives the area, yield and value of the oats crop of the State during the past fifty years:

Year.	Number of acres	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	543,572	28	15,220,029	\$0 26	\$ 3,957,207	\$ 7 28	\$9 40	\$ 5,109,577	-----	\$1,152,370

A table published elsewhere in this report gives the area, yield and value of the oats crop in each county in the State this year.

## WINTER RYE.

There are 48,972 acres of rye reported this year. The average yield per acre for the State was 17 bushels, and the total yield amounted to 855,931 bushels. The average price per bushel was 70 cents, and the total value of the crop is estimated at \$600,658.

## CROP REPORT

7

The following table gives the area, yield and value of the past fifty rye crops grown in the State:

Year.	Number of acres	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	59,455 16		951,281	\$0 49	\$ 466,127	\$ 7 37	\$ 9 80	\$ 582,659		\$ 116,532

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

## BARLEY.

A slight increase in the area of barley is noted this year, 33,352 acres being reported.

The average yield of 32 bushels per acre is exceptionally good, the total yield amounting to 1,075,058 bushels, the largest yield reported since 1889.

The average price of barley on August 1 was 54 cents per bushel, and the value of the crop at this price amounted to \$581,877.

## CROP REPORT

The following table gives the area, yield and value of the last fifty barley crops produced in the State:

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	45,058 23	1,036,334	\$0 49	\$ 507,803	11 26	\$10 55	\$ 475,362	\$ 32,441

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

## HAY.

The area devoted to meadows is 2,032,268 acres, and the average yield per acre 1 1-3 tons, the total yield being 2,695,696 tons.

The average price per ton on August 1 of \$10.55 was the highest recorded since 1870, and the total value of the crop amounted to \$28,424,138.

The condition of meadows is reported as being generally good, though a few counties in the Southern division of the State report them as thin and weedy.

The yield of clover was 1 2-3 tons per acre in Northern Illinois, 1½ tons in Central Illinois, and 1½ tons in Southern Illinois.

The August 1 condition of clover is reported excellent, being 96 per cent of normal.

## CROP REPORT

9

The following table gives the area, yield and value of the last fifty hay crops produced in this State:

## CORN.

There is a decrease of 464,565 acres reported in the area devoted to corn, as compared with 1909, the total acreage being 6,823,998 acres.

The August 1 condition of this crop is given as 86 per cent of normal, which is an increase of 4 points in the condition since the June 20th report.

Northern Illinois reports the condition as 77 per cent of normal, Central Illinois 93 per cent, and Southern Illinois 88 per cent.

Corn is reported as needing rain badly in Northern Illinois. Bureau, LaSalle, Peoria and Menard counties report corn as "firing." Smut is reported from Jo-Daviess county. In Central Illinois corn has made excellent growth, and with favorable weather will make a fine crop. Corn on bottom lands in Southern Illinois was greatly damaged by excessive rains. Chinchbugs are reported from Bond, Clinton, Fayette, Hamilton, Marion, St. Clair and Washington counties.

#### BROOM CORN.

The August 1 condition of broom corn is 87 per cent of a seasonable average in Northern Illinois, 95 per cent in Central Illinois and 87 per cent in the Southern division, a State average of 90 per cent.

#### SORGHUM.

The condition of sorghum August 1 was 88 per cent of normal in Northern Illinois, 90 per cent in Central Illinois, and 89 per cent in Southern Illinois, a State average of 89 per cent.

#### PASTURES.

An increase of 23,396 acres is reported in the area of pastures, as compared with 1909, the total area being 3,831,192 acres.

Northern Illinois reports 2,085,118 acres, Central Illinois 1,208,002 acres, Southern Illinois 538,072 acres.

Their August 1 condition is but 81 per cent of normal, being 56 per cent in Northern Illinois, 90 per cent in Central Illinois, and 95 per cent in the Southern division of the State. Continued drought and hot weather in Northern Illinois stopped growth in a large measure, and a number of counties report farmers feeding stock.

#### IRISH POTATOES.

The August 1 condition of Irish potatoes is reported as but 77 per cent of normal, being 55 per cent in Northern Illinois, 81 per cent in Central Illinois, and 95 per cent in the Southern division of the State.

#### SWEET POTATOES.

The August 1 condition of this crop is 67 per cent of a seasonable average in Northern Illinois, 87 per cent in Central Illinois and 89 per cent in Southern Illinois, a State average of 81 per cent.

#### BUCKWHEAT.

A decrease of 6 per cent in the area of buckwheat, as compared with 1909, is reported.

The August 1 condition of buckwheat is 84 per cent of normal in Northern Illinois, 96 per cent in Central Illinois, and 100 per cent in the Southern division of the State.

#### TURNIPS AND OTHER ROOT CROPS.

The area of turnips and other root crops is 5 per cent less in 1909, and their August 1 condition 89 per cent of normal.

#### CASTOR BEANS.

The condition of castor beans in Henry county, which is the only county in the Northern division reporting on them, is 80 per cent of normal. Central Illinois makes no report on condition of castor beans and Southern Illinois reports the condition as 87 per cent of normal.

#### TOBACCO.

The August 1 condition of tobacco in Northern Illinois, where but two counties, Henry and JoDaviess, report on this crop, is 80 per cent of normal.

In Douglas county, the only county reporting in Central Illinois, the condition is 101 per cent of normal.

In the Southern division, where practically all of the tobacco is raised, the condition is 90 per cent of normal.

#### COW PEAS.

In Northern Illinois the August 1 condition of cow peas was 105 per cent of normal, in Central Illinois 96 per cent, and in Southern Illinois 95 per cent.

## FIELD BEANS.

The August 1 condition of field beans was 69 per cent of a seasonable average in Northern Illinois, 87 per cent in Central Illinois and 90 per cent in the Southern division of the State.

## ALFALFA.

Alfalfa is reported grown in sixty-six counties of the State, but in many of these only in an experimental way, and on a small area.

Alfalfa was winter-killed in Cook, DuPage, Putnam and Coles counties and suffering in a few counties from drought.

Two, three and four cuttings per season are reported.

## FRUIT.

Owing to the frosts of the latter part of April, there was a light yield of fruit in Illinois this year.

## APPLES.

The August 1 condition of apples in Northern Illinois was 16 per cent of normal, in Central Illinois 9 per cent, and in Southern Illinois 59 per cent.

San Jose scale is reported from Hamilton county.

## PEACHES.

The August 1 condition of peaches is 31 per cent of normal in Northern Illinois, 12 per cent in Central Illinois, and 36 per cent in the Southern division of the State.

## PEARS

The August 1 condition of pears was 18 per cent of normal in Northern Illinois, 12 per cent in Central Illinois, and 36 per cent in Southern Illinois.

## PLUMS.

The August 1 condition of plums in Northern Illinois was 15 per cent of a seasonable average, in Central Illinois 29 per cent, and in Southern Illinois 55 per cent.

## GRAPES.

In Northern Illinois the August 1 condition of grapes was 27 per cent of normal, in Central Illinois 32 per cent, and in Southern Illinois 37 per cent.

## BLACKBERRIES.

The blackberry crop this year was 30 per cent of an average yield in Northern Illinois, 48 per cent in Central Illinois, and 60 per cent in Southern Illinois.

## QUINCES.

But very few quinces are reported this year. Their August 1 condition in Northern Illinois is 10 per cent of normal; in Central Illinois 17 per cent, and in Southern Illinois 48 per cent.

## LIVE STOCK.

According to reports of our correspondents, live stock is in a healthy condition, with but few exceptions. An outbreak of anthrax was reported from Cook county. Hog cholera was reported from Henry county, and pinkeye from Marshall county. Distemper was reported from Kane, Lawrence, Pope and Randolph counties.

## DRAIN TILE.

So far as can be ascertained, there are now 745,633,530 feet of drain tile in the State, which gives an average of 28 feet to each acre of cultivated land in Illinois.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality

or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,  
Secretary.

---

NOTE.

The County Clerks of the following counties, viz., Boone, Bureau, DuPage, Iroquois, Jo Daviess, Lee, Whiteside, Winnebago, Coles, Ford, Macoupin, Moultrie, Piatt, Sangamon, Clinton, Effingham, Wabash and Williamson furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law and computations for those counties are based on their reports.

# ILLINOIS CROP REPORT

FOR

DECEMBER 1, 1910.

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
SPRINGFIELD, December 1, 1910.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number three hundred and fifty, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-three years, and their estimates, for a term of years, when compared with subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WINTER GRAIN.

#### WHEAT.

An increase of 3 per cent is reported in the area seeded to wheat this fall, as compared with last year, 1,323,356 acres being reported.

Northern Illinois reports 93,985 acres, central Illinois 598,978 acres, and southern Illinois 630,393 acres.

The December 1 condition of the growing crop was 95 per cent of a seasonable average in northern Illinois, 86 per cent in central Illinois and 75 per cent in southern Illinois, a State average of 85 per cent.

Hessian fly damaged early sown wheat in many counties of the central and southern divisions and lack of moisture has retarded the growth of this crop throughout the State.

## CROP REPORT.

## RYE.

The area seeded to rye is reported as 49,311 acres, a decrease of 4 per cent, as compared with last year.

Northern Illinois reports 40,501 acres, central Illinois 6,032 acres, and southern Illinois 2,778 acres.

The condition of this crop December 1 was 89 per cent of a seasonable average, being 95 per cent in northern Illinois, 88 per cent in central Illinois, and 83 per cent in the southern division of the State.

## CORN.

The area of the corn crop of 1910 was reported as 6,889,721 acres, a decrease of a little over 5 per cent, as compared with the area of 1909.

Northern Illinois reported 2,951,872 acres, central Illinois 2,983,062 acres and southern Illinois 954,787 acres.

The average yield per acre was 38 bushels in northern Illinois, 46 bushels in central Illinois and 33 bushels in southern Illinois, a State average of 41 bushels.

The total corn crop amounted to 280,967,790 bushels, which is the largest yield reported since 1906.

The ruling price of corn December 1 was 37 cents per bushel, the total value of the crop amounting to \$105,607,045.

The quality of the grain was reported as 96 per cent of normal, being 98 per cent in northern Illinois, 97 per cent in central Illinois, and 93 per cent in southern Illinois.

Corn was injured by root lice in Bureau, Marshall, Warren, Shelby and Massac counties, and by chinchbugs in Logan, Perry, Richland and Washington counties.

## CROP REPORT.

5

The area, yield and value of the corn crop of the State for the past fifty-one years is given in the following table:

YEAR	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860...	3,839,159	30	115,174,770	42½	\$ 48,944,277	\$12 74	\$10 50	\$40,311,169	\$8,633,108

## CROP REPORT.

## BROOM-CORN.

The area devoted to broom-corn is reported as 20,683 acres.

The average yield per acre was 667 pounds, the total yield amounting to 13,912,000 pounds.

The ruling price December 1 was \$116 per ton and the total value of the crop amounted to \$806,549.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

YEAR.	Acreage	Av. yield per acre— pounds.	Total yield— pounds.	Price per ton.	Value of crop.
1877.....	14,566	458	6,674,747	\$ 71 20	\$ 237,594

## CROP REPORT.

7

## SORGHUM.

The area devoted to sorghum this year is reported as 4,924 acres. The average yield per acre was 89 gallons and the total yield 440,004 gallons.\*

The ruling price December 1 was 55 cents per gallon, the total value of the product being \$240,200.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

Year.	Acreage	Av. yield per acre— gallons.	Total number of gallons.	Price per gallon.	Value of crop.
1877.....	19,335	63	1,237,164	\$ 0 42	\$ 515,409

## CROP REPORT.

## BUCKWHEAT.

An increase of 141 acres is noted in the area devoted to buckwheat this year, 2,029 acres being reported.

The average yield per acre was 16 bushels and the total yield 32,697 bushels.

The ruling price December 1 was 70 cents per bushel, making the total value of the crop \$23,151.

The following table gives the area, yield and value of the buckwheat crop in this State for the past thirty-four years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.
1877.....	15,880	13	207,693	\$ 0 73	\$ 151,612

## CROP REPORT.

9

## TIMOTHY SEED.

There were 51,112 bushels of timothy seed reported produced in 1910.

The average price per bushel was \$3.55, and the total value of the crop at this price amounted to \$181,944.

The following table gives the amount and value of the crop in this State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.

## CLOVER SEED.

The amount of clover seed produced in 1910 was reported as 49,092 bushels.

The average price per bushel was \$7.70 and the total value of the crop amounted to \$377,472.

In the following table will be found the yield and value of the crop of clover seed for 1909, as compared with the thirty-three years preceding:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	64,686	\$4 80	\$310,493
1878.....	77,388	4 05	313,421

## HUNGARIAN AND MILLET SEED.

There were 26,754 bushels of Hungarian and millet seed produced in 1910.

The ruling price December 1 was \$1.10 per bushel, making the total value of the crop \$29,451.

The following table gives the yield and value of this crop since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$10,701
1878.....	26,787	55	14,733

## CROP REPORT.

## BEANS.

There are 1,029 acres devoted to beans reported in 1910. The average yield per acre was 12 bushels and the total yield 12,799 bushels.

The ruling price December 1 was \$2.40 per bushel, and at this price the crop was worth \$30,854.

The following table gives the area, yield and value of the 1910 crop of beans, together with those of thirty-three years preceding:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	1,545	13	19,955	\$1 50	\$29,916

1910.....	1,029	12	12,799	2 40	30,854

## CASTOR BEANS.

The area devoted to castor beans is reported as 5,843 acres and the average yield per acre 13 bushels, making the total yield 75,941 bushels.

The ruling price December 1 was \$1.30 per bushel and the total value of the crop amounted to \$100,605.

In the following table is given the area, yield and value of this crop since 1877:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	4,503	3½	17,538	\$1 10	\$ 18,512
1878.....	371	7	2,526	1 25	3,157

## CROP REPORT.

## TOBACCO.

There were but 878 acres of tobacco reported in 1910.

The average yield per acre was 801 pounds, the total yield amounting to 703,600 pounds.

The total value of the crop, at the ruling price December 1, was \$75,074, an average price per pound of 11 cents.

The following table gives the area, yield and value of the crop in this State since 1876:

YEAR.	Acreage.	Av. yield per acre— pounds.	Total number of pounds.	Price per pound.	Value of crop.
1877.....	12,320	640	7,885,586	\$0 08	\$638,848

## PASTURES.

The area devoted to pastures in 1910 is reported as \$3,970,302 acres.

The average value per acre for the season of 1910 was \$4.65 and the total value amounted to \$18,512,741.

The following table gives the area and value of pastures for thirty-four years past:

YEAR.	Acreage.	Value per acre	Value of crop.
1877.....	4,367,603	\$3 38	\$14,764,112
1878.....	3,983,450	3 10	12,324,657

## IRISH POTATOES.

An increase of 4,258 acres is reported in the area devoted to Irish potatoes this year, 80,550 acres being reported.

The average yield per acre was 82 bushels and the total yield amounted to 6,612,893 bushels.

The average price per bushel December 1 was 60 cents, making the total value of the crop \$3,956,107.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

YEAR.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860.....	69,225	80	5,540,300	\$0 31	\$1,717,520	\$24 80	\$20 55	\$1,422,574	\$294,946

## SWEET POTATOES.

The area devoted to sweet potatoes in 1910 was 2,494 acres.

The total yield amounted to 216,010 bushels, an average of 87 bushels per acre.

The ruling price December 1 was 75 cents per bushel and the total value of the crop at this price amounted to \$161,186.

The following table gives the area, yield and value of the sweet potato crop of the State for the past thirty-four years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$126,092

## TURNIPS AND OTHER ROOT CROPS.

A decrease of 5 per cent is reported in the area of turnips and other root crops, 353 acres being reported.

The average value per acre is \$217.94 and the total value \$76,932.

The average yield of turnips per acre was 103 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past thirty-four years:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877.....	7,056	\$ 39 55	\$279,136
1878.....	3,775	40 85	154,140

## FRUIT.

Owing to the frosts of the latter part of April, there was a light yield of fruit in the State this year.

A correct estimate of the same cannot be given on account of the meagre statistics furnished this department.

## APPLES.

There were 53,697 bushels of apples reported produced this year.

The average price per bushel was reported as \$1.05, making the total value of the crop \$56,162.

The following table gives the number of bushels of apples and the value of the crops since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	5,395,351	\$0 80	\$4,316,281

## PEACHES.

There were 12,081 bushels of peaches reported produced in 1910.

The average price per bushel was \$1.00, giving a total value of \$12,210.

The following table gives the quantity and value of the peaches produced in the State during the past thirty-four years:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	402,587	\$0 92	\$370,280

## PEARS.

There were 12,537 bushels of pears reported produced in 1910.

At the average price of 80 cents per bushel, the total value of the crop amounted to \$10,347.

The following table gives the extent and value of the pear crop of the State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	16,318	\$1 35	\$22,704
1878.....	13,510	1 25	16,887
1879.....	6,134	1 55	9,508

## CROP REPORT.

## GRAPES.

There were 377,930 pounds of grapes produced in Illinois this year. Of this amount, 309,827 pounds were reported from the southern division of the State.

The average price of 4 cents per pound gives a total value of \$14,046.

The following table gives particulars concerning the grape crop of the State for the past thirty-four years:

YEAR.	Pounds produced.	Price per pound.	Value of crop.
1877.....	3,002,748	\$0 03	\$92,782
1878.....	1,322,636	03	57,679

1910.....	377,930	04	14,046

## WINE.

The area in vineyards this year, 753 acres, is 9 per cent less than in 1909.

There were but 3,956 gallons of wine reported produced in 1910, being an average of 5 gallons per acre.

The average price per gallon was \$1.05, the total value of the product at this price amounting to \$4,088.

The following table gives the number of gallons of wine and the value thereof during the past thirty-four years:

YEAR.	Acreage.	Av. yield per acre— gallons.	Number of gallons produced.	Price per gallon.	Value of crop.
1877.....	2,612	61	158,944	\$1 20	\$191,933

## STRAWBERRIES.

The value of the strawberry crop for 1910 was reported as being \$55,381, of which \$23,050 was reported from northern Illinois, \$8,269 from central Illinois, and \$24,062 from the southern division of the State.

## WATERMELONS.

The value of watermelons sold in 1910 in northern Illinois is reported as \$35,295, in central Illinois \$2,838, in southern Illinois \$22,845, a total value of \$60,978.

## OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities, and are not of sufficient importance to be tabulated alone, but are of considerable value to producers.

The value of these miscellaneous crops for 1910 was reported as \$127,181.

## BEES AND HONEY.

There were 341,621 pounds of honey produced in 1910.

The average price obtained for that sold was 17 cents per pound, making the total value \$56,621.

The total number of hives of bees reported for 1910 was 80,544.

The following table gives the amount and value of honey produced in this State during the past twenty years, together with the number of hives of bees:

YEAR.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252
1892.....	575,356	14	83,294	81,928

## LIVE STOCK.

## HOGS.

According to the assessor's returns, there were 1,395,993 hogs in the State May 1, 1910. At the equalized value of \$3.01 per head, they were worth \$4,201,939.

The number marketed was 1,158,689, or 83 per cent of the whole number. The average weight of those marketed was 222 pounds, giving a total gross weight of 256,924,138 pounds. The average price per cwt. of hogs marketed was \$8.00, their value at this rate being \$20,490,563.

The supply of hogs on hand December 1 was 91 per cent, and the average price per cwt. on that date \$6.55.

Hog cholera is reported from Henry, Livingston, Mercer, Peoria, Putnam, Warren, Cass, Champaign, Christian, Coles, Edgar, Hancock, Jersey, Macoupin, McDonough, McLean, Menard, Piatt, Pike, Sangamon, Schuyler, Bond, Clay and Madison counties.

The following table gives the number of hogs assessed and marketed in 1910, as well as their weight and value, for the past fifty-five years:

YEAR.	Assessors' Returns.		Estimated per cent marketed.	Number fat hogs marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.

## BEEF CATTLE.

The number of cattle in the State May 1, 1910, according to assessors' returns, was 1,512,055. At the equalized value of \$8.48 per head, they were worth \$12,822,226.

Twenty-three per cent of the whole, 347,767, were marketed during the year.

The average weight was 1,077 pounds, making the total weight 374,423,680 pounds.

The average price of those sold prior to December 1 was \$5.45 per cwt., a total value of \$20,444,984.

The supply of beef cattle on hand December 1, 1910, was 92 per cent and the average price per cwt. on that date \$4.85.

Carroll county reports lumpy jaw in cattle. Pinkeye is reported from Henry and JoDaviess counties. Blackleg is reported from Morgan and Pike counties.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

YEAR.	Assessors' Returns.		Estimated per cent marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.
	Number.	Value.

## CROP REPORT.

## DAIRY COWS.

There were 565,618 dairy cows reported in Illinois in 1910.

The average value per head was \$51, making the total value \$28,762,402.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

YEAR.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878

1910.....	565,618	51 00	28,762,402

## HORSES.

The number of horses reported by assessors this year is 916,457 and their equalized value per head \$27.34, the total value amounting to \$25,055,934.

The number of colts reported foaled in 1909 was 87,417.

Green and Menard counties report distemper.

The following table gives the number of horses assessed in the State since 1855 and their equalized valuation, as well as the number of colts foaled each year since 1878:

YEAR.	Assessors' Returns.		Number colts foaled.
	Number.	Value.

## SHEEP.

There were 390,787 sheep reported by assessors this year. Their equalized value is \$1.48 per head, making their total equalized value \$578,365.

Of the number assessed, 22 per cent, or 85,971, were marketed.

Their total gross weight amounted to 8,863,022 pounds, an average weight of 103 pounds.

The average price received for those marketed prior to December 1 was \$4.90 per cwt., making their total value \$435,160.

The supply of sheep on hand December 1, 1910, was 97 per cent, as compared with last year, and the average price per cwt. \$4.40.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

YEAR.	Assessors' Returns.		Estimated per cent marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number.	Value

## CROP REPORT.

## DAIRY PRODUCTS.

## MILK.

There were 96,802,635 gallons of milk sold in Illinois in 1910.

The average price was 18 cents per gallon and the total value amounted to \$17,731,920.

The following table gives the amount, price and value of the milk sold in the State for the past thirty-four years:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877.....	17,124,506	\$0 11 1-6	\$ 1,912,236

## BUTTER.

The quantity of butter reported sold in 1910 was 10,966,239 pounds.

The average price per pound was 29 cents and the total value of butter sold amounted to \$3,140,079.

In the following table will be found the quantity and value of the butter sold in Illinois during the past thirty-four years:

YEAR.	Pounds. sold.	Price per pound.	Total value.
1877.....	18,970,227	\$0 20	\$3,794,045
1878.....	17,997,652	15	2,699,648

## CHEESE.

There were 678,927 pounds of cheese reported sold in 1910.

The average price per pound was 18 cents and the total value amounted to \$123,458.

The following table shows the quantity and value of the cheese sold in the State since 1876:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	4,502,671	\$0 12	\$540,320
1878.....	5,139,914	10	513,691

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1910.

## POULTRY AND EGGS.

The value of the poultry sold in 1910 in northern Illinois was \$1,085,018, in central Illinois \$598,423, and in the southern division of the State \$543,043, a total value of \$2,226,484.

The value of the eggs sold in the State in 1910 was 3 per cent greater than last year.

Northern Illinois reports the value of eggs sold as \$1,193,378, central Illinois \$575,836, and southern Illinois \$1,044,291, a total value of \$2,813,505.

## SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1910:

Corn .....	\$ 105,607,045
Winter wheat .....	16,953,460
Spring wheat .....	1,352,932
Oats .....	37,522,029
Rye .....	600,658
Earley .....	581,877
Buckwheat .....	23,151
Hay .....	28,424,138
Timothy seed .....	181,944
Clover seed .....	377,472
Hungarian and millet seed .....	29,451
Irish potatoes .....	3,956,107
Sweet potatoes .....	161,186
Turnips and other root crops .....	76,932
Broom-corn .....	806,549
Sorghum .....	240,200
Beans .....	30,854
Castor beans .....	100,605
Tobacco .....	75,074
Other crops not named .....	127,181
Apples .....	56,162
Peaches .....	12,210
Pears .....	10,347
Grapes .....	14,046
Strawberries .....	55,381
Watermelons .....	60,978
Other fruits and berries .....	25,392
Wine .....	4,088
Honey .....	56,621
*Horses (equalized value) .....	25,055,934
*Beef cattle (equalized value) .....	12,822,226
Dairy cows .....	28,762,402
*Hogs (equalized value) .....	4,201,939
*Sheep (equalized value) .....	578,365
Wool .....	383,934
Milk sold .....	17,731,920
Cream sold .....	2,612,437
Butter sold .....	3,140,079
Cheese sold .....	123,458
Poultry sold .....	2,226,484
Eggs sold .....	2,813,505
Total .....	\$ 297,976,709

\*NOTE—The equalized value as fixed by the State Board of Equalization, represents but one-fifth of the actual value.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season and immediately after harvest, when the information as to condition and yield is most needed, to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition of yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or 10 per cent, is recorded 110; a decrease of 5 per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for the term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

## NOTE.

The county clerks of the following counties, viz., Boone, Bureau, Carroll, DuPage, Iroquois, JoDaviess, Kankakee, Kendall, Lee, Putnam, Whiteside, Winnebago, Coles, Edgar, Ford, Macoupin, Moultrie, Piatt, Sangamon, Clinton, Effingham, Gallatin, Hamilton, Massac, Randolph, Saline, St. Clair, Wabash and Williamson furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law and computations for these counties are based on their reports.

## NAMES AND POSTOFFICE ADDRESSES

—OF—

## CROP CORRESPONDENTS

## STATE BOARD OF AGRICULTURE

FOR THE YEAR 1910

## WITH DATE OF APPOINTMENT

## ADAMS COUNTY—

- 1879. G. W. Dean, R. F. D. No. 1, Adams.
- 1883. H. C. Cupp, Fall Creek.
- 1888. C. H. Rankin, Fall Creek.
- 1904. A. R. Wallace, Jr., Camp Point.

## ALEXANDER COUNTY—

- 1907. G. W. Childress, Olive Branch.
- 1909. J. L. King, Elco.
- 1909. Herman Bunch, McClure.

## BOND COUNTY—

- 1885. W. H. Taylor, Greenville.
- 1898. L. E. Alexander, Reno.
- 1908. N. Cowen, Sorento.
- 1910. E. E. Mitchell, Greenville.

## BOONE COUNTY—

- 1899. O. S. Cohoon, Belvidere.
- 1909. Phil H. Sanford, Garden Prairie.

## BROWN COUNTY—

- 1889. W. B. Rigg, Mt. Sterling.
- 1909. E. F. Byrns, Mt. Sterling, R. F. D.
- 1909. C. J. Davis, Timewell.
- 1909. J. M. Cronin, Mt. Sterling, R. F. D.

## BUREAU COUNTY—

- 1897. O. W. Mason, Buda.
- 1907. D. D. Draper, New Bedford.
- 1907. Frank J. Nye, Princeton.
- 1907. John Johnson, Walnut, R. F. D. No. 4.
- 1907. E. B. Anthony, Tiskilwa.

## CALHOUN COUNTY—

- 1881. M. A. Kamp, Kampsville.
- 1909. Wm. Franke, Batchtown.

## CARROLL COUNTY—

- 1909. Wm. Phillips, Mt. Carroll.
- 1909. Geo. Lang, Chadwick.

## CASS COUNTY—

- 1896. W. W. Mathew, Ashland, R. R. No. 2.
- 1903. M. L. Crum, Virginia.

## CHAMPAIGN COUNTY—

- 1908. Dr. F. M. Conkey, Homer.
- 1885. W. E. Dawley, Seymour, R. F. D. No. 43.
- 1907. R. E. Chambers, Sadorus.
- 1907. Reuben Roughton, Rantoul.

## CHRISTIAN COUNTY—

- 1877. A. B. Herdman, Morrisonville.
- 1878. O. S. Nash, Sharpsburg.
- 1897. Basil Hill, Taylorville.
- 1904. J. Earl White, Morrisonville.
- 1908. C. W. Ebert, Owaneco.
- 1909. E. Dixon, Pana.
- 1910. Albert Davis, Taylorville.

## CLARK COUNTY—

- 1880. Jerry Ishler, Martinsville.
- 1909. T. W. Richards, West York.

## CLAY COUNTY—

- 1904. Leslie F. Brissenden, Flora.
- 1904. Jno. T. Campbell, Louisville.

## CLINTON COUNTY—

- 1909. Jos. Heimann, Albers.
- 1901. Frank Bassler, Trenton.
- 1907. Theo. W. Timmerman, Breese.

## COLES COUNTY—

- 1905. John W. Black, Humboldt.
- 1905. James A. Walker, Lerna.
- 1905. E. E. Boyer, Ashmore.
- 1909. Sam Rardin, Rardin.

## COOK COUNTY—

- 1880. E. Wheeler, Arlington Heights.
- 1907. M. L. Staples, Palatine.
- 1907. John T. Cooper, Orland.
- 1907. C. Doctor, Orland.

## CRAWFORD COUNTY—

- 1877. William L. Heustis, Robinson.
- 1882. William F. Wood, Oblong.
- 1897. W. M. Hart, Annapolis.
- 1900. Clinton Newlin, Hutsonville.

## CUMBERLAND COUNTY—

- 1882. James M. Albin, Neoga.
- 1887. David B. Green, Toledo.
- 1897. J. L. Mattoon, Greenup.

## DE WITT COUNTY—

- 1882. W. R. Carle, Wapella.
- 1897. W. H. Oglevee, Clinton.
- 1898. C. E. Robb, Clinton.

## DOUGLAS COUNTY—

- 1887. William Iles, R. F. D. No. 6, Tuscola.
- 1892. Perry N. Howe, R. F. D. No. 3, Tuscola.
- 1909. W. F. Goodspeed, Tuscola.
- 1910. John McCarty, Arcola, R. R. No. 5.

## DU PAGE COUNTY—

- 1904. E. W. Plane, West Chicago.
- 1904. F. A. Rogers, Downers Grove.

## EDGAR COUNTY—

- 1892. C. D. Smith, Dudley, R. R. No. 12.
- 1904. F. L. Moss, Edgar.
- 1909. Winfield H. Scott, Chrisman, R. F. D. No. 26.

## EDWARDS COUNTY—

- 1889. Ira Gould, Bone Gap.
- 1909. J. R. Doty, Albion.
- 1909. R. P. Roby, West Salem, R. F. D.

## EFFINGHAM COUNTY—

- 1883. George W. Strong, Dietrich.
- 1883. T. J. Dunn, Dietrich, R. F. D. No. 2.
- 1902. Chas. Blakely, Altamont.

## FAYETTE COUNTY—

- 1910. Carroll A. Davis, Farina.
- 1910. R. K. Hunt, Ramsey.
- 1910. Roy Wilson, Brownstown.

## FORD COUNTY—

- 1879. S. J. LeFevre, Gibson City.
- 1892. W. B. Flora, Paxton.
- 1902. E. E. Bishop, Piper City.

## FRANKLIN COUNTY—

- 1889. John A. Coleman, West Frankfort.
- 1907. M. V. Webb, Benton, R. R. No. 2.
- 1904. C. M. Upchurch, Ewing.
- 1905. J. F. Ice, West Frankfort.
- 1907. G. D. Dimmick, West Frankfort.
- 1910. John Stagner, West Frankfort, R. R. No. 1.

## FULTON COUNTY—

- 1903. C. E. Chick, Vermont.
- 1904. Abram Wilson, Fairview.
- 1908. Russell Fluke, Lewistown.

## GALLATIN COUNTY—

- 1909. W. A. Walthen, Equality.
- 1909. J. C. Anderson, Omaha.

## GREENE COUNTY—

- 1902. L. E. Prindle, Roodhouse.
- 1907. A. J. Johnson, Barrow.
- 1907. J. F. Doyel, Barrow.
- 1910. L. H. Manner, Eldred.

## GRUNDY COUNTY—

- 1892. Wm. Reardon, Morris.
- 1910. Edgar S. Hoge, Morris.

## HAMILTON COUNTY—

- 1887. Geo. K. Edwards, McLeansboro.
- 1889. J. D. Lockwood, McLeansboro.
- 1889. J. M. Weldin, McLeansboro.

## HANCOCK COUNTY—

- 1877. E. J. Baxter, Nauvoo.
- 1885. C. M. McMillan, Carthage, R. R. No. 2.
- 1906. Geo. E. Campbell, La Harpe, R. F. D. No. 2.
- 1907. Fred G. Miner, Plymouth, R. R. No. 1.
- 1910. Phil Richards, Ferris.

## HARDIN COUNTY—

- 1892. John Gross, Gross.
- 1910. Elmer E. Hill, Elizabethtown, R. R. No. 3.
- 1910. W. O. Watters, Karbers Ridge.
- 1910. W. R. Smith, Lamb.

## HENDERSON COUNTY—

- 1907. L. E. Van Arsdale, Stronghurst.
- 1908. E. C. Hutton, Terre Haute.

## HENRY COUNTY—

- 1908. D. S. Brown, Geneseo, R. R. No. 3.
- 1910. Oscar Hulting, Geneseo.
- 1910. Wm. F. Muer, Geneseo.
- 1910. Methan Ferguson, Geneseo.

## IROQUOIS COUNTY—

- 1879. Robert Caldwell, Sheldon.
- 1897. Herman Salmon, Milford, R. R. No. 2.
- 1908. John Fry, Donovan, R. R. No. 2.
- 1897. Peter Wright, Clifton.

## JACKSON COUNTY—

- 1904. H. G. Easterly, Carbondale.
- 1904. Peter W. Griffith, Murphysboro.
- 1907. A. W. Williams, Ava.
- 1907. J. B. Williamson, Ava.

## JASPER COUNTY—

- 1902. W. A. Kibler, Yale.
- 1906. G. A. Clark, Hunt City.
- 1910. R. D. K. Price, Newton.
- 1910. Chas. F. Byerly, Newton.

## JEFFERSON COUNTY—

- 1879. E. S. Noleman, R. F. D. No. 2, Centralia.
- 1897. A. J. Cook, Opdyke.
- 1907. E. B. O. Dayton, Belle Rive.

## JERSEY COUNTY—

- 1891. M. C. Stanley, Jerseyville.
- 1891. Wm. Lawler, Nutwood.
- 1891. James M. Segraves, Dow, R. F. D.
- 1909. S. H. Ruyle, Medora.

## JO DAVIESS COUNTY—

- 1885. Geo. W. Pepon, Warren.
- 1904. W. G. Curtiss, Stockton.
- 1910. Ed. W. Monnier, Elizabeth.
- 1910. Joseph Frick, Galena.
- 1910. Joseph Varty, Apple River.
- 1910. Henry Zimmerman, Galena.
- 1910. Chas. E. Gray, Hanover.
- 1910. James Hodgins, Scales Mound.
- 1910. Pierce Richards, Galena.

# ILLINOIS CROP REPORT

FOR

May 1, 1911

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
SPRINGFIELD, May 1, 1911.

The information contained in this report was obtained from the reports of correspondents mailed to this department the first day of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty years, and their estimates for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WINTER WHEAT.

Of the 1,323,356 acres seeded last fall for harvest in 1911, it is estimated that 88,048 acres, or a little less than 7 per cent, has been winter killed or destroyed by floods or Hessian fly, leaving 1,235,308 acres for harvest.

In northern Illinois the area destroyed was 5 per cent, and in central and southern Illinois 7 per cent.

The condition of the growing crop on May 1 is 94 per cent of normal, and 7 points better than the May 1 condition of 1910.

Hessian fly has injured wheat in Knox, Marshall, Peoria, Adams, Brown, Cass, Edgar, Fulton, Hancock, Logan, Macon, Mason, McDonough, Menard, Morgan, Moultrie, Sangamon, Schuyler, Shelby, Tazewell, Alexander, Clay, Clinton, Crawford, Effingham, Franklin, Gallatin, Jackson, Lawrence, Monroe, Perry and St. Clair counties.

Chinchbugs are reported from Franklin, Perry, Randolph and Washington counties and rust from Hamilton county.

### SPRING WHEAT.

An increase of 8 per cent in the area seeded to spring wheat is reported this year, and the May 1 condition is 98 per cent of normal.

## OLD WHEAT.

Of the 18,702,668 bushels of wheat raised in Illinois last year, it is estimated that there was on May 1, 1,972,607 bushels, or about 11 per cent, in the producer's hands.

Northern Illinois reports 11 per cent of the crop in first hands, central Illinois 8 per cent and southern Illinois 13 per cent.

The following table gives the amount of old wheat in first hands May 1, since and including 1880:

Year Produced	Crop in bushels.	Per cent crop on hand following May 1.	Amount crop in producers' hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.
1880	56,508,309	15	8,476,246	39,851,883	
1881	22,374,163	13	2,924,039	5,765,414	
1882	52,323,261	15	8,174,634	36,214,133	
1883	20,374,572	15	3,208,358	4,575,152	
1884	34,367,493	18	6,350,202	17,367,794	
1885	8,299,243	14	2,201,904		5,439,786
1886	28,284,068	15	4,000,931	12,082,999	
1887	38,076,468	13	5,034,875	21,842,119

1909	20,533,822	9	1,944,087		291,583
1910	18,702,068	11	1,972,607		2,280,835
Average.....	26,142,962	13	3,335,233	12,461,236	3,695,993

## WINTER RYE.

There were 49,311 acres reported seeded to rye last fall, and the May 1 report shows that 2 per cent of the area has been winter killed or destroyed by floods or Hessian fly, leaving 48,600 acres for harvest.

The May 1 condition is 99 per cent of normal in northern Illinois, 96 per cent in central Illinois and 98 per cent in the southern division, a State average of 98 per cent which is 5 points better than the condition a year ago.

## OATS.

The area devoted to oats is reported as 3 per cent less than last year.

The May 1 condition of this crop is 96 per cent of a seasonable average in northern Illinois, 93 per cent in central Illinois and 92 per cent in the southern division, a State average of 94 per cent.

## BARLEY.

There is a slight increase reported in the area of barley, and its May 1 condition is 97 per cent of normal.

## OLD CORN.

The Illinois corn crop of 1910, as reported to this Department, was 280,967,790 bushels. Of this amount about 31 per cent or 88,162,280 bushels was in the producers' hands on May 1.

Champaign county reported the largest corn crop in 1910, 11,216,150 bushels.

The following table gives the amount of old corn in the producers' hands May 1, the past thirty-two years, as well as the extent of the crop produced each year:

Year Produced.	Crop	Per cent corn on hand following May 1.	Bushels corn in producers' hands following May 1.
1879	305,913,277	32	99,229,889
1880	250,697,036	28	71,929,343
1881	174,491,706	21	37,445,964

Average.....	234,758,935	30	71,054,022

## MEADOWS.

The area devoted to meadows is 96 per cent as compared with last year.

Their May 1 condition is 88 per cent of normal in northern Illinois, 94 per cent in central Illinois and 96 per cent in southern Illinois, a State average of 93 per cent.

The growth of meadows has been retarded to some extent owing to the cool weather previous to May 1.

## PASTURES.

There is a deficiency of 2 per cent in the area of pastures as compared with 1910.

Pastures are reported rather backward, making but slow growth on account of the cool weather. Their May 1 condition is 93 per cent of normal.

## SPRING PLOWING.

About two-thirds of the entire amount of spring work is usually completed by May 1, but, owing to the late spring, only half of the work is reported as finished on May 1.

The condition of the soil in northern Illinois is reported excellent. In central Illinois a number of counties report it packed and heavy, while in the southern division much rain is reported, and the soil hard to work.

## CROP REPORT.

### LIVE STOCK.

#### Horses.

The number of horses reported May 1 is 99 per cent as compared with 1910, and their May 1 condition is 98 per cent of normal.

Distemper is reported from Grundy, Kankakee, Kendall, Ogle, Will, Brown, Champaign, Greene, Logan, Mason, Menard, Pike, Sangamon, Alexander, Randolph, Union and Washington counties.

Pink-eye is reported from Logan county, and azoturia from Knox county.

#### Mules.

There is a deficiency of 3 per cent in the number of mules in the State this year as compared with 1910, and their May 1 condition is 99 per cent of normal.

#### Cattle.

The number of cattle reported this year is 95 per cent as compared with last year.

Their May 1 condition is reported as 99 per cent of normal in northern Illinois, and 98 per cent in the central and southern divisions of the State.

#### Dairy Cows.

The number of dairy cows is reported the same as last year, and their May 1 condition is 96 per cent of normal.

#### Hogs.

The number of hogs on hand May 1 is 99 per cent as compared with 1910, and their May 1 condition is 98 per cent of normal.

Hog cholera is reported from Knox, Brown, Edgar, Hancock, Morgan, Schuyler, and Wabash counties.

#### Sheep.

The number of sheep reported is 98 per cent as compared with last year, and their May 1 condition is 98 per cent of normal.

### FRUIT.

The fruit prospect on May 1 was most favorable, but very little damage from frost being reported.

#### BEEES.

Bees are reported from a number of counties as having come through the winter in bad shape, and many colonies have perished.

## WAGES PAID FARM HANDS.

There is a steady increase in the wages paid to farm hands, but the supply of help is reported not equal to the demand.

The average wages paid farm hands for the past thirty-two years is given in the following table:

Division	Per Day		Per Month	
	With board	Without board	With board	Without board
Northern .....	\$1.10	\$1.40	\$21.65	\$29.60
Central .....	.90	1.20	19.25	25.75
Southern .....	.70	.95	15.80	21.95
Average .....	\$0.90	\$1.20	\$18.90	\$25.75

The wages paid farm help in the three divisions of the State, during the past thirty-two years, are given in the following tables:

### NORTHERN DIVISION.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not intended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

# ILLINOIS CROP REPORT

FOR

JUNE 20, 1911

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture  
Springfield, June 20, 1911.

The information contained in this report was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### CORN.

A decrease of 4 per cent is noted in the area devoted to corn, as compared with 1910.

The June 20 condition of corn is reported as 88 per cent of normal, being 102 per cent in northern Illinois, 88 per cent in central Illinois and 75 per cent in southern Illinois.

The earliest appearance of corn above ground was April 1, which date was reported from Washington county, but most of it appeared during the first ten days of May.

The quality of seed corn is 99 per cent of an average, being 102 per cent in northern Illinois, 98 per cent in central Illinois and 97 per cent in southern Illinois.

Cut and wire worms and the root louse have injured corn in many counties and chinch bugs are reported from the southern division of the State as quite numerous.

### BROOM CORN.

The area of broom corn is 83 per cent, as compared with 1910 and the June 20 condition is 87 per cent of normal.

## CROP REPORT

## SORGHUM.

There is a decrease of 9 per cent in the area of sorghum this year.

In northern Illinois its June 20 condition was 94 per cent of normal, in central Illinois 81 per cent, and in southern Illinois 75 per cent, a State average of 83 per cent.

## WINTER WHEAT.

The June 20 condition of winter wheat in northern Illinois was 87 per cent of normal, in central Illinois 82 per cent, and in southern Illinois 88 per cent, a State average of 86 per cent, which is a decrease of 8 points since the May 1 report.

Hessian fly is reported from Boone, Iroquois, Knox, Marshall, Peoria, Putnam, Brown, Cass, Coles, Douglas, Edgar, Fulton, Hancock, Logan, Macon, Massac, McDonough, Menard, Morgan, Moultrie, Piatt, Pike, Sangamon, Schuyler, Shelby, Tazewell, Alexander and Saline counties. Chinchbugs are reported from Christian, Cumberland, Macoupin, Shelby, Bond, Clay, Clinton, Effingham, Fayette, Franklin, Jasper, Jefferson, Marion, Monroe, Perry, Randolph, St. Clair and Washington counties.

Rust is reported from Adams county and smut from Wabash county.

## SPRING WHEAT.

There is an increase of 10 per cent in the area of this crop in northern Illinois, where practically all the spring wheat is raised, and the June 20 condition is reported as 88 per cent of normal.

## OATS.

The unseasonable hot weather of May and June, together with lack of moisture during these two months, have caused this crop to deteriorate from 94 per cent of an average on May 1, to 61 per cent on June 20th. Many fields are reported too short to be cut with the binder.

Smut is reported from Henry and JoDaviess counties.

## RYE

The June 20 condition of rye is reported as 90 per cent in northern Illinois, 86 per cent in central Illinois and 85 per cent in southern Illinois, a State average of 87 per cent.

## BARLEY.

The June 20 condition of barley in northern Illinois, where most all of this crop is grown, is 90 per cent of normal.

## MEADOWS.

There is a decrease of 4 per cent in the area of meadows as compared with 1910. Meadows have been badly injured by drought, their June 20 condition being 63 per cent of normal in northern Illinois, 53 per cent in central Illinois and 48 per cent in southern Illinois, a State average of 55 per cent.

## CLOVER.

There is a decrease of 21 per cent in the area devoted to clover, as compared with 1910, much clover being reported winter-killed.

In northern and central Illinois the June 20 condition is 67 per cent of normal, and in southern Illinois 66 per cent.

## ALFALFA.

The June 20 condition of alfalfa is reported from forty-five counties in the State and is 84 per cent of a seasonable average, being 86 per cent in northern Illinois, 90 per cent in central Illinois and 76 per cent in the southern division of the State.

## HUNGARIAN AND MILLET.

In northern Illinois the area of Hungarian and millet is 103 per cent as compared with 1910, in central Illinois 82 per cent and in southern Illinois 86 per cent.

## PASTURES.

There is a decrease of 3 per cent in the area of pastures as compared with last year.

In northern Illinois their June 20 condition is 75 per cent of normal, in central Illinois 57 per cent and in southern Illinois 56 per cent, a State average of 62 per cent.

The protracted drought cut short the growth of grass, pastures having deteriorated 31 points since the May 1 report.

## IRISH POTATOES.

There is a deficiency of 7 per cent in the area devoted to Irish potatoes, as compared with 1910.

The June 20 condition of this crop is but 57 per cent of a seasonable average, being 80 per cent in northern Illinois, 49 per cent in central Illinois and 42 per cent in the southern division of the State.

## SWEET POTATOES.

There is a decrease of 11 per cent in the area devoted to sweet potatoes this year. Their June 20 condition is 73 per cent of normal, being 78 per cent in both northern and central Illinois and 64 per cent in the southern division of the State.

## FIELD BEANS.

A decrease of 10 per cent is reported in the area of field beans, as compared with last year, and their June 20 condition is 83 per cent of normal.

## COW PEAS.

The area of cow peas, as compared with 1910, is 110 per cent in northern Illinois, 84 per cent in central Illinois and 87 per cent in southern Illinois.

## TOBACCO.

No report was received on this crop from the northern division of the State. In central Illinois the area is reported the same as last year and the condition 80 per cent of normal. In the southern division the area is reported 65 per cent as compared with 1910, and the June 20 condition as 77 per cent of normal.

## FRUIT.

The outlook for a good crop of fruit is not as favorable as anticipated, the heat and drought prevailing during May and June cutting the yield short. Apples and peaches are reported as falling from the trees in a number of counties.

## CHERRIES.

Northern Illinois reports the yield of cherries 103 per cent, central Illinois 99 per cent and the southern division of the State 81 per cent.

## STRAWBERRIES.

The yield of strawberries was 81 per cent of a seasonable average in northern Illinois, 62 per cent in central Illinois and 70 per cent in the southern division of the State.

## RASPBERRIES.

Northern Illinois reports the yield of raspberries 91 per cent of a seasonable average, central Illinois 64 per cent and southern Illinois 74 per cent.

## GOOSEBERRIES.

Northern Illinois reports the yield of gooseberries as 90 per cent of a seasonable average, central Illinois 80 per cent and southern Illinois 86 per cent.

## CURRANTS.

The yield of currants is reported as 89 per cent in northern Illinois, 82 per cent in central Illinois and 81 per cent in the southern division of the State.

## VINEYARDS.

The area of vineyards is reported as 98 per cent, as compared with 1910.

Their June condition is 98 per cent of normal in northern Illinois, 95 per cent in central Illinois and 91 per cent in the southern division of the State.

## YOUNG LIVE STOCK.

## PIGS.

The number of pigs reported this year, as compared with 1910, is 97 per cent and their June 20 condition is 97 per cent of normal.

## LAMBS.

The number of lambs reported this year is 96 per cent, as compared with 1910.

Their June 20 condition is 99 per cent of normal in northern Illinois and 96 per cent in the central and southern divisions of the State.

## CALVES.

The number of calves reported this year is 96 per cent, as compared with 1910, and their June 20 condition is 97 per cent of normal.

## COLTS.

The number of colts foaled this year, as compared with 1910, is 98 per cent, and their June 20 condition is 98 per cent of normal.

The average value of colts at weaning time is reported as \$55 in northern Illinois, \$62 in central Illinois and \$57 in the southern division of the State.

The number of colts lost prior to weaning is reported as 10 per cent in northern Illinois, 11 per cent in central Illinois and 8 per cent in the southern division of the State.

The average cost of service of stallions in northern Illinois is reported as \$15, in central Illinois \$13, and in southern Illinois \$11.

## WOOL.

The wool clip of 1911 was 4 per cent less than in 1910. In both northern and central Illinois it was 98 per cent, as compared with last year, and 92 per cent in the southern division of the State.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,  
Secretary.

# ILLINOIS CROP REPORT

FOR

AUGUST 1, 1911.

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture  
Springfield, August 1, 1911.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-one years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WHEAT.

The area seeded to wheat for the crop of 1911 was 1,405,372 acres, all of which was winter wheat, with the exception of 68,105 acres.

Five per cent of the winter wheat area was winter-killed or destroyed by floods or Hessian fly, leaving 1,336,267 acres of wheat (spring and winter) for harvest.

The average yield per acre of spring and winter wheat was 17 bushels, the total yield being 22,722,316 bushels.

The ruling price of wheat August 1 was 78 cents per bushel, and the value of the entire crop at this price amounted to \$17,621,462.

Hessian fly was reported from Henderson, Marshall, Putnam, Champaign, Cumberland, Fulton, Hancock, McDonough, Menard and Schuyler counties and smut from Jersey, Edwards, Jackson, Saline, St. Clair and Wabash counties.

The following table gives the area, yield and value of the wheat crop of the State during the past fifty-one years:

## WHEAT (SPRING AND WINTER).

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded instead of that harvested, as the amount required for seed is based on the area seeded last year, which was 1,405,372 acres. As one and one-third bushels per acre is used for seed, it will require 1,873,829 bushels to seed next year's crop.

Allowing four bushels per capita for food, it takes, according to the 1910 census, which gives Illinois 5,638,591 inhabitants, 22,554,364 bushels for that purpose, so that 24,428,194 bushels will be required for home use. As but 22,722,316 bushels were raised in this State this year, it will be necessary to import 1,705,873 bushels or equivalent in flour to fill the demand of the home market.

## OATS.

The area seeded to oats for 1911 was reported as 2,766,087 acres, of which 1,664,460 acres are reported from northern Illinois, 886,677 acres from central Illinois and 214,950 acres from the southern division of the State.

The average yield was 31 bushels to the acre, the total yield amounting to 85,632,301 bushels. Northern Illinois reports the yield as 35 bushels per acre, central Illinois 28 bushels and southern Illinois but 13 bushels.

The unseasonable hot weather of May and June, together with a lack of moisture during these two months, cut short the yield of this crop, tho the quality of the grain was better than expected.

In the southern division of the State the oats crop was a "near failure," as much of the straw was too short to harvest with a binder and was mown.

The ruling price of oats on August 1 was 35 cents per bushel, and the value of the crop at this price amounted to \$30,232,813.

The following table gives the area, yield and value of the oats crop of the State during the past fifty-one years.

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of the oats crop in each county in the State this year.

## WINTER RYE.

There are 49,356 acres of rye reported this year. The average yield per acre was 18 bushels, and the total yield amounted to 902,501 bushels. The average price August 1 was 73 cents per bushel, the highest price recorded since 1881, and the value of the crop at this price amounted to \$660,029.

The following table gives the area, yield and value of the past fifty-one rye crops grown in the State.

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

## BARLEY.

There are 33,274 acres of barley reported this year. The average yield was 27 bushels per acre, the total yield being 907,923 bushels.

The ruling price per bushel on August 1 of 80 cents, is the highest price recorded since 1874, the value of the entire crop being \$726,521.

The following table gives the area, yield and value of the last fifty-one barley crops produced in the State:

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

## HAY.

The area devoted to meadows is reported as 1,900,077 acres.

Meadows suffered greatly from the drought and the average yield of  $\frac{2}{3}$  of a ton is the lightest recorded since 1895. The total yield amounted to 1,240,413 tons.

The average price per ton on August 1 was \$17.44, the highest price obtained in the history of these reports, and the total value of the crop amounted to \$21,631,209.

The August 1 condition of clover was 93 per cent of normal and the average yield for the State was  $\frac{2}{3}$  of a ton per acre.

The following table gives the area, yield and value of the last fifty-one hay crops produced in this State:

Year.	Number of acres harvested.	Average yield per acre—tons.	Tons produced.	Price per ton.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## CROP REPORT.

## CORN.

There is a decrease of 260,812 acres reported in the area devoted to corn as compared with 1910, the total acreage being 6,628,909 acres.

Northern Illinois reports 2,860,605 acres; central Illinois, 2,926,184 acres, and southern Illinois, 842,120 acres.

The August 1 condition of corn in northern Illinois is reported as 89 per cent of normal, 74 per cent in central Illinois and 56 per cent in southern Illinois, a State average of 73 per cent, which is a decrease of 15 points in the condition of corn since the June 20th report.

The long spell of hot weather and lack of sufficient rainfall are responsible for this decrease in the condition of corn. Late planted corn is in better shape than the early planted.

Many barren stalks are reported as the extreme heat burned the tassel before ears were formed.

Corn is reported as firing in DeKalb, Grundy, Iroquois, McHenry, Mercer, Winnebago, Douglas, McDonough, Sangamon, Jasper, Marion and Perry counties.

Chinchbugs are reported from Jersey, Macoupin, Bond, Franklin, Jasper, Marion, Perry, Richland, St. Clair and Washington counties.

## BROOM CORN.

The August 1 conditions of broom corn is 92 per cent in northern Illinois, 74 per cent in central Illinois and 67 per cent in the southern division, a State average of 78 per cent.

## SORGHUM.

The condition of sorghum August 1 was 87 per cent in northern Illinois, 75 per cent in central Illinois and 62 per cent in the southern division, a State average of 75 per cent.

## PASTURES.

A decrease of 186,815 acres is reported in the area of pastures as compared with 1910, the total area being 3,783,487 acres.

Northern Illinois reports 1,985,597 acres, central Illinois 1,229,418 acres and southern Illinois 568,472 acres.

Continual drought and hot weather cut short the growth of pastures and their August 1 condition is but 45 per cent of normal, being 49 per cent in northern Illinois, 47 per cent in central Illinois and 40 per cent in the southern division of the State.

## IRISH POTATOES.

The August 1 condition of Irish potatoes is reported as but 31 per cent of normal, being 48 per cent in northern Illinois, 23 per cent in central Illinois and 22 per cent in southern Illinois.

## SWEET POTATOES.

The condition of this crop on August 1 is 67 per cent of a seasonable average in northern Illinois, 52 per cent in central Illinois and 47 per cent in southern Illinois, a State average of 55 per cent.

## BUCKWHEAT.

A decrease of 8 per cent in the area of buckwheat, as compared with 1910, is reported.

The August 1 condition of buckwheat is 89 per cent of normal in northern Illinois, and 79 per cent in both the central and southern divisions of the State.

## TURNIPS AND OTHER ROOT CROPS.

The area of turnips and other root crops is 7 per cent less than in 1910, and their August 1 condition is 74 per cent of a seasonable average.

## CASTOR BEANS.

But two counties, Sangamon and Hamilton, report on castor beans, where the August 1 condition is given as 95 per cent and 75 per cent respectively.

## TOBACCO.

In the northern division of the State, JoDaviess is the only county which reports on tobacco, where the August 1 condition is but 50 per cent of normal.

In Douglas, the only county in the central division reporting on tobacco, the condition is given as 90 per cent of normal.

In the southern division of the State the August 1 condition is 53 per cent of normal.

## COW PEAS.

In northern Illinois the August 1 condition of cow peas is 92 per cent of normal, in central Illinois 79 per cent and in southern Illinois 70 per cent.

## FIELD BEANS.

The August 1 condition of field beans was 88 per cent of a seasonable average in northern Illinois, 75 per cent in central Illinois and 69 per cent in the southern division of the State.

## FRUIT.

According to the reports of our correspondents, fruit, especially apples and peaches, will be most abundant. On account of the heavy yield, a great deal of fruit is reported small in size, tho the quality is generally good.

## APPLES.

The August 1 condition of apples in northern Illinois was 98 per cent of normal, 89 per cent in central Illinois and 51 per cent in the southern division of the State.

San Jose scale is reported from Clinton and Richland counties.

## PEACHES.

The August 1 condition of peaches is 80 per cent of normal in northern Illinois, 79 per cent in central Illinois and 58 per cent in the southern division of the State.

## PEARS.

The August 1 condition of pears is 78 per cent of normal in northern Illinois, 64 per cent in central Illinois and 53 per cent in southern Illinois.

## PLUMS.

In northern Illinois the August 1 condition of plums was 79 per cent of a seasonable average, in central Illinois 72 per cent and 55 per cent in the southern division of the State.

## GRAPES.

In northern Illinois the August 1 condition of grapes is 96 per cent of normal, in central Illinois 90 per cent and in southern Illinois 88 per cent.

## BLACKBERRIES.

The blackberry crop this year was 70 per cent of an average yield in northern Illinois, 57 per cent in central Illinois and 71 per cent in southern Illinois.

## QUINCES.

But very few counties report on the condition of quinces. Their August 1 condition in northern Illinois is 77 per cent of normal, in central Illinois 62 per cent and in southern Illinois 53 per cent.

## LIVE STOCK.

Stock is reported as rather thin in flesh, due to the shortage of pastures. Pinkeye affected cattle in Cook, Douglas, Crawford, Fayette and Wayne counties.

Distemper is reported from Ford, Greene, Pike and Schuyler counties.

Hog cholera is reported from DeKalb, Henry, Mercer, Ogle, Warren, Cass, Christian, Douglas, Hancock, Jersey, Macoupin, McDonough, Menard, Morgan, Pike, Sangamon, Schuyler, Scott, Shelby, Vermilion, Edwards, Fayette, Madison, Wabash and Wayne counties. Anthrax is reported from Edwards county.

#### DRAIN TILE.

So far as can be ascertained, there are now 747,990,493 feet of drain tile in the State, which gives an average of 29 feet to each acre of cultivated land in Illinois.

#### AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,  
Secretary.

#### NOTE.

The county clerks of the following counties, viz.: Bureau, DuPage, Henderson, Iroquois, Lee, Whiteside, Ford, Wabash and Williamson, furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law, and computations for those counties are based on their reports.

# ILLINOIS CROP REPORT

FOR

DECEMBER 1, 1911.

---

## SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
SPRINGFIELD, December 1, 1911.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number three hundred, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-four years, and their estimates, for a term of years, when compared with subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

### WINTER GRAIN.

#### WHEAT.

On account of the excessive rains at seeding time, a decrease of 8 per cent in the area seeded to wheat this fall is reported.

Northern Illinois reports 113,705 acres, central Illinois 537,131 acres and southern Illinois 587,070 acres, a total area of 1,237,906 acres.

The December 1 condition of the growing crop was 94 per cent of a seasonable average in northern Illinois, 77 per cent in central Illinois and 76 per cent in southern Illinois, a State average of 82 per cent.

## CROP REPORT.

## RYE.

The area seeded to rye is reported as 45,602 acres, a decrease of 5 per cent, as compared with last year.

Northern Illinois reports 37,262 acres, central Illinois 5,859 acres, and southern Illinois 2,481 acres.

The condition of this crop December 1 was 89 per cent of a seasonable average, being 97 per cent in northern Illinois, 86 per cent in central Illinois and 84 per cent in the southern division of the State.

## CORN.

The area of the corn crop of 1911 was reported as 6,623,579 acres, a decrease of 4 per cent, as compared with the area of 1910.

Northern Illinois reported 2,845,493 acres, central Illinois 2,932,568 acres and southern Illinois 845,518 acres.

The average yield per acre was 42 bushels in northern Illinois, 37 bushels in central Illinois and 25 bushels in southern Illinois, a State average of 38 bushels.

The total corn crop amounted to 248,953,114 bushels.

The ruling price of corn December 1 was 55 cents per bushel and the total value of the crop amounted to \$136,075,513.

The quality of the grain was reported as but 82 per cent of normal, being 94 per cent in northern Illinois, 80 per cent in central Illinois and 73 per cent in the southern division of the State.

Chinchbugs injured corn in Christian, Cumberland, Macoupin, Montgomery, Clinton, Effingham, Fayette, Jackson, Jefferson, Madison, Marion, Randolph, Washington and Wayne counties.

## CROP REPORT.

5

The area, yield and value of the corn crop of the State for the past fifty-two years is given in the following table:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860...	3,839,159	30	115,174,770	42½	\$ 48,944,277	\$12 74	\$10 50	\$40,311,169	\$ 8,633,108

## CROP REPORT.

## BROOM-CORN.

The area devoted to broom-corn is reported as 12,577 acres.

The average yield per acre was 667 pounds, the total yield amounting to 7,506,000 pounds.

The ruling price December 1 was \$177 per ton and the total value of the crop amounted to \$663,966.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total yield— pounds.	Price per ton.	Value of crop.
1877.....	14,566	458	6,674,747	\$ 71 20	\$ 237,594

## CROP REPORT.

7

## SORGHUM.

The area devoted to sorghum this year reported as 4,803 acres. The average yield per acre was 79 gallons and the total yield 379,381 gallons.

The ruling price December 1 was 63 cents per gallon, the total value of the product being \$239,979.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

Year.	Acreage.	A.v. yield per acre— gallons.	Total number of gallons.	Price per gallon.	Value of crop.
1877.....	19,335	63	1,237,164	\$0 42	\$515,409

## CROP REPORT.

## BUCKWHEAT.

The area devoted to buckwheat is reported as 1,458 acres.

The average yield per acre was 13 bushels and the total yield 19,086 bushels.

The ruling price December 1 was 88 cents per bushel, making the total value of the crop \$16,817.

The following table gives the area, yield and value of the buckwheat crop in this State for the past thirty-five years:

Year.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.
1877.....	15,880	13	207,693	\$0 73	\$151,612

## TIMOTHY SEED.

There were 46,135 bushels of timothy seed reported produced in 1911.

The average price per bushel was \$5.75, and the total value of the crop at this price amounted to \$265,322.

The following table gives the amount and value of the crop in this State since and including 1877:

Year.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	483,571	\$1 25	\$ 604,464
1878.....	261,559	1 25	326,949

## HUNGARIAN AND MILLET SEED.

There were 17,452 bushels of Hungarian and millet seed produced in 1911.

The ruling price December 1 was \$1.00 per bushel, making the total value of the crop \$17,114.

The following table gives the yield and value of this crop since 1876:

Year.	Bushels produced	Price per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$10,701
1878.....	26,787	55	14,733

## CROP REPORT.

## BEANS.

There are 914 acres devoted to beans reported in 1911. The average yield per acre was 11 bushels and the total yield amounted to 10,481 bushels.

The ruling price December 1 was \$2.65 per bushel, and at this price the crop was worth \$27,693.

The following table gives the area, yield and value of the 1911 crop of beans, together with those of thirty-four years preceding:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	1,545	13	19,955	\$1 50	\$29,916

## CASTOR BEANS.

The area devoted to castor beans is reported as 5,819 acres and the average yield per acre 13 bushels, making the total yield 75,647 bushels.

The ruling price December 1 was \$1.10 per bushel and the total value of the crop amounted to \$82,613.

In the following table is given the area, yield and value of this crop since 1877:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	4,503	31 $\frac{1}{2}$	17,538	\$1 10	\$ 18,512

## CROP REPORT.

## TOBACCO.

There were but 662 acres of tobacco reported in 1911.

The average yield per acre was 854 pounds, the total yield amounting to 565,-250 pounds.

The total value of the crop, at the ruling price of 10 cents per pound on December 1, was \$55,707.

The following table gives the area, yield and value of the crop in this State since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total number of pounds.	Price per pound.	Value of crop.
1877.....	12,320	640	7,885,586	\$0 08	\$638,848

## PASTURES.

The area devoted to pastures in 1911 is reported as 3,819,412 acres.

The average value per acre for the season of 1911 was \$4.70 and the total value amounted to \$18,048,403.

The following table gives the area and value of pastures for thirty-five years past:

Year.	Acreage.	Value per acre.	Value of crop.
1877.....	4,367,603	\$3 38	\$14,764,112

## IRISH POTATOES.

The area devoted to Irish potatoes in 1911 was reported as 76,261 acres.

The average yield per acre was 57 bushels and the total yield amounted to 4,382,092 bushels.

The average price per bushel December 1 was 85 cents, making the total value of the crop \$3,715,788.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## CROP REPORT.

17

## SWEET POTATOES.

The area devoted to sweet potatoes in 1911 was 1,900 acres.

The total yield amounted to 135,704 bushels, an average of 71 bushels per acre.

The ruling price December 1 was \$1.00 per bushel and the total value of the crop at this price amounted to \$134,427.

The following table gives the area, yield and value of the sweet potato crop of the State for the past thirty-five years:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$126,092

## TURNIPS AND OTHER ROOT CROPS.

A decrease of 7 per cent is reported in the area of turnips and other root crops, 328 acres being reported.

The average value per acre is \$649.39, and the total value \$213,005.

The average yield of turnips per acre was 104 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past thirty-five years:

Year.	Acreage.	Value per acre.	Value of crop.
1877.....	7,056	\$ 39 55	\$279,136
1878.....	3,775	40 85	154,140

## FRUIT.

A large yield of fruit was reported from all sections of the State.

## APPLES.

Northern Illinois reports the yield of apples 177 per cent as compared with 1910, central Illinois 208 per cent, and southern Illinois 122 per cent.

The average price of apples per bushel was 75 cents.

## PEACHES.

Northern Illinois reports the yield of peaches 173 per cent as compared with 1910, central Illinois 168 per cent and southern Illinois 115 per cent.

The average price of peaches was 90 cents a bushel.

## PEARS.

Northern Illinois reports the yield of pears 147 per cent as compared with 1910, central Illinois 140 per cent and southern Illinois 99 per cent.

The average price of pears per bushel was 90 cents.

## GRAPES.

There were 750,491 pounds of grapes produced in Illinois this year. Of this amount 658,388 pounds were reported from the southern division of the State.

The average price of 3 cents per pound gives a total value of \$19,135.

The following table gives particulars concerning the grape crop of the State for the past thirty-five years:

Year.	Pounds produced.	Price per pound.	Value of crop.
1877.....	3,002,748	\$0 03	\$ 92,782
1878.....	1,322,636	03	57,679

## WINE.

The area in vineyards this year, 738 acres, is 2 per cent less than in 1910.

There were 4,147 gallons of wine reported produced in 1911, being an average of 5 gallons per acre.

The average price per gallon was \$1.00, the total value of the product at this price amounting to \$4,062.

The following table gives the number of gallons of wine and the value thereof during the past thirty-five years:

Year.	Acreage.	Av. yield per acre— gallons.	Number of gallons produced.	Price per gallon.	Value of crop.
1877.....	2,612	61	158,944	\$1 20	\$191,933

## CROP REPORT.

## STRAWBERRIES.

The value of the strawberry crop for 1911 was reported as \$64,865, of which \$24,537 was reported from northern Illinois, \$8,192 from central Illinois, \$31,636 from the southern division of the State.

## WATERMELONS.

The value of watermelons sold in 1911 in northern Illinois is reported as \$35,983, in central Illinois \$7,865, in southern Illinois \$13,898, a total value of \$57,746.

## OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities, and are not of sufficient importance to be tabulated alone, but are of considerable value to producers.

The value of these miscellaneous crops for 1911 was reported as \$112,585.

## BEES AND HONEY.

There were 314,523 pounds of honey produced in 1911.

The average price obtained for that sold was 16 cents per pound, making the total value \$51,258.

The total number of hives of bees reported for 1911 was 82,022.

The following table gives the amount and value of honey produced in this State during the past twenty-one years, together with the number of hives of bees:

Year.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252

## LIVE STOCK.

## HOGS.

According to the assessors' returns, there were 1,502,023 hogs in the State May 1, 1911. At the equalized value of \$2.21 per head, they were worth \$3,319,471.

The number marketed was 1,246,677, or 83 per cent of the whole number. The average weight of those marketed was 199 pounds, giving a total gross weight of 248,046,524 pounds. The average price per cwt. of hogs marketed was \$6.10, their value at this rate being \$15,160,592.

The supply of hogs on hand December 1 was 79 per cent and the average price per cwt. on that date \$5.80.

Hog cholera was reported from seventy-seven counties of the State.

The following table gives the number of hogs assessed and marketed in 1911, as well as their weight and value, for the past fifty-six years:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat hogs marketed.	A. v. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.
	Number.	Value.

## BEEF CATTLE.

The number of cattle in the State May 1, 1911, according to assessors' returns, was 1,473,741. At the equalized value of \$8.64 per head, they were worth \$12,733,122. Twenty-three per cent of the whole, 338,957 were marketed during the year.

The average weight was 1,079 pounds, making the total weight 365,809,570 pounds.

The average price of those sold prior to December 1 was \$5.25 per cwt., a total value of \$19,242,750.

The supply of beef cattle on hand December 1, 1911 was 84 per cent and the average price per cwt. on that date \$5.30.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

Year.	Assessor's Returns.		Estimated per cent marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.
	Number.	Value.

## DAIRY COWS.

There were 542,060 dairy cows reported in Illinois in 1911.

The average value per head was \$49.00, making the total value \$26,814,998.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

Year.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878

## CROP REPORT.

## HORSES.

The number of horses reported by assessors this year is 961,329 and their equalized value per head \$27.03, the total value amounting to \$25,984,723.

The number of colts reported foaled in 1910 was 85,311. Distemper is reported from Kane, Edgar, Alexander, Jackson and Randolph counties.

The following table gives the number of horses assessed in the State since 1855 and their equalized valuation, as well as the number of colts foaled each year since 1878:

Year.	Assessors' Returns.		Number colts foaled.

## SHEEP.

There were 396,183 sheep reported by assessors this year. Their equalized value is \$1.18 per head, making their total equalized value \$467,496.

Of the number assessed, 22 per cent, or 87,157, were marketed.

Their total gross weight amounted to 8,855,232 pounds, an average weight of 102 pounds.

The average price received for those marketed prior to December 1 was \$4.25 per cwt., making their total value \$375,341.

The supply of sheep on hand December 1 was 89 per cent as compared with last year, and the average price per cwt. \$4.00.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number.	Value.

## CROP REPORT.

## WOOL.

There were 1,613,592 pounds of wool shorn in 1911. The average price per pound was 20 cents, the total value of the wool clip amounting to \$316,869.

The following table gives the number of pounds shorn, the price per pound and the total value of the wool clip for the last thirty-five years:

Year.	Number pounds shorn.	Price per pound.	Total value.
1877.....	3,291,677	\$0 30	\$ 987,503

## DAIRY PRODUCTS.

## MILK.

There were 99,439,581 gallons of milk sold in Illinois in 1911.

The average price was 18 cents per gallon and the total value amounted to \$18,291,145.

The following table gives the amount, price and value of the milk sold in the State for the past thirty-five years:

Year.	Gallons sold.	Price per gallon.	Total value.
1877.....	17,124,506	\$0 11 $\frac{1}{2}$	\$ 1,912,236

1911.....	641,693	17	109,136

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1911.

## POULTRY AND EGGS.

The value of the poultry sold in 1911 in northern Illinois was \$934,249, in central Illinois \$661,841 and in the southern division of the State \$530,167, a total value of \$2,126,257.

The total value of eggs sold in 1911 is reported as \$2,788,288, of which \$1,105,504 was reported from northern Illinois, \$631,972 from central Illinois and \$1,050,812 from the southern division of the State.

## SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1911:

Corn .....	\$ 136,075,513
Winter wheat .....	16,733,246
Spring wheat .....	888,216
Oats .....	30,232,813
Rye .....	660,029
Barley .....	726,521
Buckwheat .....	16,817
Hay .....	21,631,209
Timothy seed .....	265,322
Clover seed .....	443,744
Hungarian and millet seed .....	17,114
Irish potatoes .....	3,715,788
Sweet potatoes .....	134,427
Turnips and other root crops .....	213,005
Broom-corn .....	663,966
Sorghum .....	239,979
Beans .....	27,693
Castor beans .....	82,613
Tobacco .....	55,707
Other crops not named .....	112,585
Grapes .....	19,135
Strawberries .....	64,365
Watermelons .....	57,746
Other fruits and berries .....	34,467
Wine .....	4,062
Honey .....	51,258
*Horses (equalized value) .....	25,984,723
*Beef cattle (equalized value) .....	12,733,122
Dairy cows .....	26,814,998
*Hogs (equalized value) .....	3,319,471
*Sheep (equalized value) .....	467,496
Wool .....	316,869
Milk sold .....	18,291,145
Cream sold .....	2,569,528
Butter sold .....	2,837,333
Cheese sold .....	109,136
Poultry sold .....	2,126,257
Eggs sold .....	2,788,288
Total .....	\$ 311,525,706

\*NOTE—The equalized value as fixed by the State Board of Equalization, represents but one-fifth of the actual value.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season and immediately after harvest, when the information as to condition and yield is most needed, to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition of yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or 10 per cent, is recorded 110; a decrease of 5 per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for the term of years will be found to closely approximate the assessors' returns.

J. K. DICKERSON, Secretary.

## NOTE.

The county clerks of the following counties, viz., Boone, Bureau, DuPage, Henderson, Iroquois, Lee, Livingston, Putnam, Whiteside, Winnebago, Ford, Montgomery, Scott, Edwards, Gallatin, Wabash and Williamson furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law and computations for these counties are based on their reports.

# CROP CORRESPONDENTS

## STATE BOARD OF AGRICULTURE

FOR THE YEAR 1911

### WITH DATE OF APPOINTMENT.

#### ADAMS COUNTY—

- 1879. G. W. Dean, R. F. D. No. 1, Adams.
- 1883. H. C. Cupp, Fall Creek.
- 1888. C. H. Rankin, Payson, Star Route.
- 1904. A. R. Wallace, Jr., Camp Point.

#### ALEXANDER COUNTY—

- 1907. G. W. Childress, Olive Branch.
- 1909. J. L. King, Elco.
- 1909. Herman Bunch, McClure.

#### BOND COUNTY—

- 1885. W. H. Taylor, Greenville.
- 1898. L. E. Alexander, Reno.
- 1908. N. Cowen, Sorento.
- 1910. E. E. Mitchell, Greenville.

#### BOONE COUNTY—

- 1899. O. S. Cohoon, Belvidere.
- 1909. Phil H. Sanford, Garden Prairie.
- 1911. C. W. Colton, 1519 Pearl st., Belvidere.

#### BROWN COUNTY—

- 1889. W. B. Rigg, Mt. Sterling.
- 1909. E. F. Byrns, Mt. Sterling, R. F. D.
- 1909. C. J. Davis, Timewell.
- 1909. J. M. Cronin, Mt. Sterling, R. F. D.

#### BUREAU COUNTY—

- 1897. O. W. Mason, Buda.
- 1907. D. D. Draper, New Bedford.
- 1907. Frank J. Nye, Princeton.
- 1907. John Johnson, Walnut, R. F. D. No. 4.
- 1907. E. B. Anthony, Tiskilwa.

#### CALHOUN COUNTY—

- 1881. M. A. Kamp, Kampsville.
- 1909. Wm. Franke, Batchtown.

#### CARROLL COUNTY—

- 1909. Wm. Phillips, Mt. Carroll.
- 1909. Geo. Lang, Chadwick.

#### CASS COUNTY—

- 1878. W. W. Mathew, Petersburg, R. No. 2.
- 1903. M. L. Crum, Virginia.

#### CHAMPAIGN COUNTY—

- 1908. Dr. F. M. Conkey, Homer.
- 1885. W. E. Dawley, Seymour, R. F. D. No. 43.
- 1907. R. E. Chambers, Sadorus.
- 1907. Reuben Roughton, Rantoul.

#### CHRISTIAN COUNTY—

- 1877. A. B. Herdman, Morrisonville.
- 1878. O. S. Nash, Sharpsburg.
- 1897. Basil Hill, Taylorville.
- 1904. J. Earl White, Morrisonville.
- 1908. C. W. Ebert, Owaneco.
- 1909. E. Dixon, Pana.
- 1910. Albert Davis, Taylorville.

#### CLARK COUNTY—

- 1880. Jerry Ishler, Martinsville, R. R. No. 4.
- 1909. T. W. Richards, West York.

#### CLAY COUNTY—

- 1904. Leslie F. Brissenden, Flora.
- 1904. Jno. T. Campbell, Louisville.

#### CLINTON COUNTY—

- 1909. Jos. Heimann, Albers.
- 1901. Frank Bassler, Trenton.
- 1907. Theo. W. Timmerman, Breese.

#### COLES COUNTY—

- 1905. John W. Black, Humboldt.
- 1905. James A. Walker, Lerna.
- 1905. E. E. Boyer, Ashmore.
- 1909. Sam Rardin, Rardin.

#### COOK COUNTY—

- 1880. E. Wheeler, Arlington Heights.
- 1907. M. L. Staples, Palatine.
- 1907. John T. Cooper, Orland.
- 1907. C. Doctor, Orland.

## CRAWFORD COUNTY—

- 1877. William L. Heustis, Robinson.
- 1882. William F. Wood, Oblong.
- 1897. W. M. Hart, Annapolis.
- 1900. Clinton Newlin, Hutsonville.
- 1909. T. W. Richards, West York.

## CUMBERLAND COUNTY—

- 1882. James M. Albin, Neoga.
- 1887. David B. Green, Toledo.
- 1897. J. L. Mattoon, Greenup.

## DE WITT COUNTY—

- 1882. W. R. Carle, Wapella.
- 1897. W. H. Oglevee, Clinton.
- 1898. C. E. Robb, Clinton.
